A Guide to High-Stakes Standardized Testing in the United States Amy L. Kelly,2021-11-29 High stakes standardized testing has a long history of exclusion oppression power and control with deep roots in the landscape of American education In this text the events and circumstances that have forged the way of high stakes testing are presented in a straightforward and accessible manner This history is essential to understanding our current realities of testing in the United States especially as they relate to marginalization and control of certain populations Furthermore a historical perspective provides a lens to consider high

stakes standardized testing critically to unpack the purposes benefits and damages of this practice

A Guide to Detracking Math Courses Angela Torres, Ho Nguyen, Elizabeth Hull Barnes, Laura Wentworth, 2023-05-03 Create a pathway to equity by detracking mathematics The tracked mathematics system has been operating in US schools for decades However research demonstrates negative effects on subgroups of students by keeping them in a single math track thereby denying them access to rigorous coursework needed for college and career readiness The journey to change this involves confronting some long standing beliefs and structures in education When supported with the right structures instructional shifts coalition building and educator training and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is to increase more students access to and achievement in higher levels of mathematics learning especially for students who are historically marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators who have talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts from policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons learned and prompts to provoke discussion about your own context the book walks you through Designing and gaining support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum professional development and coaching Supporting and improving the policy through continuous research monitoring and maintenance This book offers the big ideas that help you in your own unique journey to advance equity in your school or district s mathematics education and also provides practical information to help students in a detracked system thrive

Schooling for Tomorrow's America Marcella L. Kysilka, O. L. Davis, 2013-09-18 This book is suitable for educators at all career stages making it ideal for book study groups or seminars It offers insights into the future and past of education inspiring readers to think deeply and work towards educational improvement whether used as a textbook or in professional learning communities

Successful Induction for New Teachers Sara Bubb, 2007-09-18 Investing in people right at the start of their career is crucial because no matter how good initial training is the first year as a fully fledged teacher is bound to be tough Induction is there to make sure new teachers succeed and enjoy their work Supporting new teachers is not just a good thing to do it s statutory With the new professional standards every Newly Qualified Teacher NQT and Induction Tutor needs this book to ensure that the induction year is a success This book is an accessible engaging guide to surviving the tricky bits of the first year of teaching It offers the sort of clear information and practical tips that Sara Bubb knows people are crying out for because they raise them in the TES virtual staffroom Written in a lively yet authoritative style the book is packed with illuminating anecdotes handy checklists and useful examples covers much that NQTs need to know including how induction works how to meet the core standards dealing with difficult people how to get the most out of professional development and performance management gives detailed guidance about how induction tutors and mentors can support monitor and assess new teachers Indispensable for any new teacher needing up to date advice and

information induction tutors CPD coordinators local authority advisers in charge of induction and trainee teachers towards the end of their course this book is an invaluable resource to success in the induction year Sara Bubb has an international reputation in the field of induction and supports new teachers and induction tutors at the Institute of Education University of London and across the country She writes a popular weekly advice column for new teachers in the Times Educational Supplement and answers questions on its online staffroom

Mathematics and Science Content Standards and Curriculum Frameworks Rolf K. Blank, State Education Assessment Center (Council of Chief State School Officers), 1997 The Council of Chief State School Officers CCSSO collaborating with Policy Studies Associates and a panel of experts in mathematics and science education has completed a study of states curriculum frameworks development and standards setting from 1994 The Council study analyzed the content and quality of state frameworks and standards documents and examined how states are working with local educators on implementation This report describes the changing landscape of framework development and standards setting in the United States and identifies emerging issues for practitioners and policy makers The study was conducted with three kinds of data concerning the current situation of state standards and frameworks in mathematics and science A concept mapping analysis of all state curriculum frameworks and standards documents in mathematics and science was completed In order to identify all current state documents works in progress and dissemination and implementation activities interviews were held with state mathematics and science education specialists With the aggregated information from these sources a report that focuses on current and emerging policy issues pertaining to the implementation of standards based reform in mathematics and science education was developed Contains 27 references Author ASK
