[The Complete Book on Organic Farming and Production of Organic Compost](#) NPCS Board of Consultants & Engineers,2021-04-01 Organic farming composed of organic fertilizers as an integral virtue continues to remain a lucrative bet for the expanding agricultural industry in line with growing organic food appeal to consumers as a healthy and ethical choice Beyond ethics organic fertilizers are gaining significant traction on account of numerous environmental benefits such as enhanced soil structure and water conservation Growing awareness among farmers about the nutritional benefits of plant based and animal based fertilizers and their role in promoting growth of earthworm and other microbiological activities vital for plant growth are fuelling adoption of organic fertilizers Animal based

organic fertilizers are garnering significant traction over plant based variants owing to their good aeration and water retention capabilities that enhance the soil fertility As consumers today are inclined towards clean labels and seeking transparency in everything they consume organic has emerged as a promising approach to address these concerns In light of these beneficial aspects of organic approaches and after gauging the futuristic opportunistic value of organic fertilizers Increasing health issues such as diabetes obesity and digestive disorders are also one of the factors driving the growth of the organic food The increased accessibility of organic food and beverages in retail outlets make it more convenient for consumers to purchase these products Asia Pacific is also expected to rapidly increase in CAGR owing to the changing lifestyles and increase in consumer disposable income Organic food products and shifting consumer preference towards organic food are among the major factors expected to boost demand for organic food products in India Growing awareness among the consumers regarding the benefits of organic fertilizers over chemical fertilizers and increasing awareness among farmers and cultivators towards eco friendly fertilizers The escalating demand for organic food products is likely to create a dire need for large scale development of organic fertilizers in the forthcoming years which in turn will create a wide field of opportunities for stakeholders Sensing the growing demand for organic fertilizers market goliaths have shifted their focus on expanding their organic fertilizer produce to capitalize on the growing unmet demand from consumers The book cover various aspects related to different organic farming and production of organic compost with their agriculture process and also provides contact details of machinery suppliers with equipment photographs and plant layout A total guide to manufacturing and entrepreneurial success in one of today s organic farming and compost industry This book is one stop guide to one of the fastest growing sectors of the organic farming and compost industry where opportunities abound for manufacturers retailers and entrepreneurs This is the only complete handbook on the commercial production of organic farming and compost It serves up a feast of how to information from concept to purchasing equipment

The Complete Book on Adhesives, Glues & Resins Technology (with Process & Formulations) 2nd Revised Edition NPCS Board of Consultants & Engineers, 2017-02-24 An adhesive is a material used for holding two surfaces together In the service condition that way adhesives can be called as Social as they unite individual parts creating a whole A useful way to classify adhesives is by the way they react chemically after they have been applied to the surfaces to be joined There is a huge range of adhesives and one appropriate for the materials being joined must be chosen Gums and resins are polymeric compounds and manufactured by synthetic routes Gums and resins largely used in water or other solvent soluble form for providing special properties to some formulations More than 95% of total adhesive used worldwide are based on synthetic resins Gums and resins have wide industrial applications They are used in manufacture of lacquers printing inks varnishes paints textiles cosmetics food and other industries Increase in disposable income levels rising GDP and booming retail markets are propelling growth in packaging and flexible packaging industry Growth of disposable products is expected to increase which
