Harrison shows how to maximize your tuning investment by focusing on causes rather than symptoms and by quickly  
identifying the areas that deliver the greatest bang for the buck Writing for DBAs and developers with all levels of experience  
Harrison covers every area of Oracle performance management from application design through SQL tuning contention  
management through memory and physical IO management He also presents up to the minute guidance for optimizing the  
performance of the Oracle 11g Release 2 You ll start by mastering Oracle structured performance tuning principles and tools  
including techniques for tracing and monitoring Oracle execution Harrison illuminates the interaction between applications  
and databases guides you through choosing tuning tools and introduces upfront design techniques that lead to higher  
performance applications He also presents a collection of downloadable scripts for reporting on all aspects of database  
performance Coverage includes Tuning by layers the most effective highest value approach to Oracle performance
