Global Dialogue on Media Dynamics, Trends and Perspectives on Public Relations and Communication Fong Peng Chew, 2025-01-08 This book contains the proceedings of the International Conference on Public Relations and Media Communication PRMC 2024 which explore the dynamic intersections of public relations and media in today's rapidly evolving landscape. It has a repository of innovative research, insightful discussions, and emerging trends in digital media strategies, crisis communication, media ethics, public relations in the age of social media, and the impact of emerging technologies on media practices. It touches upon a wide array of topics and provides a comprehensive overview of the latest advancements and challenges in these fields. With innovative research contributions and case studies from around the world, this book will be instructive in shaping the way we look at the world of media and ourselves. This is a highly useful guide for university professors, research scholars, writers, journalists, and media professionals who wish to stay updated on the recent shifts in public relations and media communication. [World trends in freedom of expression and media development](#)

UNESCO, University of Oxford (UK), 2018-02-05 In the face of such challenges, this new volume in the World Trends in Freedom of Expression and Media Development series offers a critical analysis of new trends in media freedom, pluralism, independence, and the safety of journalists. *Metaliteracy* Thomas P. Mackey, Trudi E. Jacobson, 2014-04-08 This cutting-edge approach to information literacy will help your students grasp an understanding of the critical thinking and reflection required to engage in technology spaces as savvy producers, collaborators, and sharers. **Social Media In Society And Culture: Perspective For Mass Communication And Journalism** Dr. Amit Sangwan, Social media has transformed society and culture by changing how information is created, shared, and consumed. Platforms like Facebook, Instagram, X, and YouTube have turned audiences into active participants who engage, comment, and even produce news. For mass communication and journalism, this shift offers wider reach and real-time interaction but also creates challenges such as misinformation, fast-paced news cycles, and the need for stronger ethical standards and digital literacy. Social media has changed how information is created, shared, and consumed in society. Platforms like Facebook, Instagram, X, and YouTube allow instant global communication. Audiences are now active participants who comment, share, and create content. Journalism benefits from faster news distribution and wider reach. Challenges include misinformation, fake news, and algorithm influence. Strong ethics, fact-checking, and digital literacy are essential in modern mass communication. **Global Trends in Media Education** Tony Lavender, Birgitte Tufte, Dafna Lemish, 2003 Over the last decades, Media Education has gradually obtained an educational status in many countries throughout the world, although few countries have actually incorporated this subject in their formal school curricula.
