The Art of Problem Solving Anthony Ekanem, 2016-11-07 You likely use problem solving every day It is often taken for granted People do not realize just how wonderful and important problem solving is Most people do not even recognize it as a skill In fact most of the time problem solving is just second nature Problem solving can actually be defined as an art The art of problem solving is something that we learn at a very young age It helps us through life and is something we could not live without Being able to solve problems is a life skill It is important and it should be taken seriously to get the best results from it Looking at problem solving as an art can help you to become more appreciative of it You can begin to use problem solving to its full potential and really respect that problem solving is important You just need to learn more about problem solving as a skill and an art Problem solving is a fixture in life You have to be able to solve problems Problems pop up every day Sometimes they are small and sometimes they are large Sometimes solving a problem is a matter of life and death and other times it is merely a matter of keeping your sanity Regardless of why you need problem solving you cannot deny that you need it If you are a parent then problem solving is a skill you no doubt could not live without Children are full of problems and as the parent it is up to you to help them find the solution Sometimes you have to be creative because problems that come up can sometimes be quite difficult to solve without a little creative thinking The same can be said in business Businesses have plenty of problems and it is up to the employees to find a way to solve those problems
