Field Guide to Birds of South-East Asia Craig Robson,2015-08-13

A concise yet authoritative guide to the birds of South east Asia Taxonomy of the birds of the world fotolulu,2018-10-30 How do you come up with the idea to list all the birds in the world including the subspecies and to give all birds English names There is a reason for it my favorite saying whose author is unknown Everyone said that s not possible then there was one who did not know that and just did it I am an animal photographer and probably a little bit crazy I ve built a complete animal database for mammals and birds over the last decade This facilitates my work in determining and archiving images and assigning keywords especially among the many subspecies With this book I would like to give all birding friends and ornithologists a complete overview in English For this I have given unique English names to all subspecies The naming should not meet any scientific requirements The names are based on translations from the Latin name geographical distribution areas and the names of the discoverers The entries consist of the scientific name the English name the distribution areas and the author I wish you a lot of fun with this book but especially while watching the fascinating birdlife

fotolulu **Blue Carbon Dynamics of the Indian Ocean** Abhra Chanda,Sourav Das,Tuhin Ghosh,2022-03-21 This book gives an overview of various aspects of blue carbon dynamics from each country bordering the Indian Ocean Given the importance of the topic of blue carbon it can be assumed that in near future more and more researchers from the Indian Ocean countries will pursue environmental research in this domain This book is a ready reference to all those who are interested to have a holistic understanding about the ground scenario of blue carbon in the Indian Ocean There are many research institutes situated in the periphery of the Indian Ocean that are devoted to nurturing the new avenues of marine carbon research Researchers and scholars interested in this domain will find this book provides a good overview wherein all

the necessary information on the status and functioning of these blue carbon ecosystems are detailed in a concise way The book is also helpful to postgraduate students of marine science or those who have a specialization in marine biogeochemistry or chemical oceanography to develop a basic understanding about the very concept of blue carbon from the perspective of the Indian Ocean

China, the UN, and Human Protection Rosemary Foot,2020-05-27 Over a relatively short period of time Beijing moved from dismissing the UN to embracing it How are we to make sense of the People s Republic of China s PRC embrace of the UN and what does its engagement mean in larger terms This study focuses directly on Beijing s involvement in one of the most contentious areas of UN activity human protection contentious because the norm of human protection tips the balance away from the UN s Westphalian state based profile towards the provision of greater protection for the security of individuals and their individual liberties The argument that follows shows that as an ever more crucial actor within the United Nations Beijing s rhetoric and some of its practices are playing an increasingly important role in determining how this norm is articulated and interpreted In some cases the PRC is also influencing how these ideas of human protection are implemented At stake in the questions this book tackles is both how we understand the PRC as a participant in shaping global order and the future of some of the core norms which constitute that order
