Ramadan Al Buti S :

Religion and State in Syria Thomas Pierret, 2013-03-25 This book affords a new perspective on Syria as it stands at the crossroads of political social and religious fragmentation

Wahhabism and the Rise of the New Salafists Namira Nahouza, 2018-06-14 Wahhabism is often described as one of the most conservative branches of Islam and its fundamentalist approach seen as fuelling jihadist extremism But what is the theological basis of Wahhabism How do Wahhabi beliefs and doctrine differ from branches of Sunni Islam While previous scholarship has examined Wahhabism as a political phenomenon this book turns attention to the complex religious issues that are central to its understanding Tracing its roots in the 18th century up until the present day Namira Nahouza shows why the Wahhabi movement has opposed traditional Islamic scholarship on the interpretation of the Qur'an and hadith Of key importance Nahouza shows are the differing beliefs about the oneness of God and God's names and attributes issues on which both Wahhabi and other Salafi groups are united Based on extensive research into classical and contemporary Arabic religious sources Nahouza presents the contours of Sunni theological debate and reveals how the Wahhabi movement became the predecessor to the Salafism we see today In highlighting the far reaching consequences of these theological divisions both for Muslim communities and the world at large the book fills a significant gap in existing research and is essential reading for scholars researching Islamic Theology Islamic History Security Studies and Islamic Radicalism

In the Whirlwind of Jihad Martha Brill Olcott, 2012-07-12 In Uzbekistan Central Asia's most populous country Islam has been an ever present factor in the lives of its people and a contentious force for political officials trying to build a secular and authoritarian government In the Whirlwind of Jihad examines the intertwined and evolving relationships between religion the state and society in Uzbekistan from the late 1980s to today encompassing the period from the collapse of the Soviet Union to the launch of the U.S. led war on terror in neighboring Afghanistan Martha Brill Olcott the foremost expert on Central Asia concludes that in an era of global communication and increased contact with international Islamic communities a new role for Islam in Uzbekistan will ultimately emerge with implications beyond the country's borders

Mediating the Uprising Rebecca Joubin, 2020-05-15 *Mediating the Uprising* Narratives of Gender and Marriage in Syrian Television Drama shows how gender and marriage metaphors inform post uprising Syrian drama for various forms of cultural and political critique These narratives have become complicated since the uprising due to the Syrian regime's effort to control the revolutionary discourse As Syria's uprising spawned more terrorist groups some drama creators became nostalgic for pre war days While for some screenwriters a return to pre 2011 life would be welcome after so much bloodshed others advocated profound cultural and social transformation instead They employed marriage and gender metaphors in the stories they wrote to engage in political critique even at the risk of creating marketing difficulties for the shows or they created escapist stories such as transnational adaptations and Old Damascus tales Serving as heritage preservation *Mediating the Uprising* underscores that television

drama creators in Syria have many ways of engaging in protest with gender and marriage at the heart of the polemic

Beshara and Ibn 'Arabi Suha Taji-Farouki, 2007 Investigating sufi inspired spirituality in the modern world this multi faceted and interdisciplinary volume focuses on Beshara a spiritual movement that applies the teachings of Ibn Arabi in a non Muslim context It traces the movement s emergence in sixties Britain and analyses its major teachings and practices exploring through this case study the interface between sufism and the New Age and the encounter between Islam and the West Examining from a global perspective the impact of cultural transformations associated with modernization and globalization on religion this timely volume concludes by tracing possible futures of sufi spirituality both in the West and in the Muslim world

Middle East Authoritarianisms Steven Heydemann, Reinoud Leenders, 2013-01-09 The developments of early 2011 changes the political landscape of the Middle East But even as urgent struggles continue it remains clear that authoritarianism will survive this transformational moment The study of authoritarian governance therefore remains essential for our understanding of the political dynamics and inner workings of regimes across the region This volume considers the Syrian and Iranian regimes what they share in common and what distinguishes them Too frequently authoritarianism has been assumed to be a generic descriptor of the region and differences among regimes have been overlooked But as the political trajectories of Middle Eastern states diverge in years ahead with some perhaps consolidating democratic gains while others remaining under distinct and resilient forms of authoritarian rule understanding variations in modes of authoritarian governance and the attributes that promote regime resilience becomes an increasingly urgent priority

The Making of Salafism Henri Lauzière, 2015-11-17 Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth Others argue Salafism is an anti innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today Though they contradict each other both narratives are considered authoritative making it hard for outsiders to grasp the history of the ideology and its core beliefs Introducing a third empirically based genealogy The Making of Salafism understands the concept as a recent phenomenon projected back onto the past and it sees its purist evolution as a direct result of decolonization Henri Lauzière builds his history on the transnational networks of Taqi al Din al Hilali 1894-1987 a Moroccan Salafi who with his associates participated in the development of Salafism as both a term and a movement Traveling from Rabat to Mecca from Calcutta to Berlin al Hilali interacted with high profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam Today Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues Lauzière s pathbreaking history recognizes the social forces behind this purist turn uncovering the popular origins of what has become a global phenomenon

3rd International Symposium on Bediuzzaman Said Nursi, 1997 Islam and Modernity John Cooper, Ron Nettler, Mohamed Mahmoud, 1998-12-31 This text presents the ideas of a number of contemporary modernist and liberal

Muslim thinkers exposing an important intellectual current in Islamic thought These figures work mainly outside established institutional political and religious frameworks whilst relying heavily on traditional sources Responding to the challenges brought by colonialism and modernization they propose new conceptions and interpretations of Islam consonant with the age Although their specific concerns and emphases vary their thought shares certain features a reconsideration of the relation between religion and politics an easy incorporation of modern Western ideas a reinterpretation of sacred sources which highlights their more universalist elements and a conception of Islam as moving with historical change whilst remaining rooted in Qur'anic values Disputing the widespread view of modern Islam as essentially political the book shows a quite different face of the tradition

Arab Women Suha Sabbagh,1996 The lives of Arab women today are complex diverse and far more multi faceted than those of the one dimensional creatures of veiled passivity who inhabit the imaginations of so many Western experts In most Arab countries women face constricting laws and social customs that hold them back from full participation in their societies Some as a result lead lives of passive submission But others rage against those institutional obstacles organize other women to challenge male domination of their public and private lives and seize every opening large or small to move the rights of women at least that one next step Arab women labor in dangerous factories and unmechanized fields they keep families intact and care for their children without access to modern technology sometimes even without electricity or clean water But they also fill medical and engineering schools in universities throughout the Arab world they are creating some of the greatest art and literature of their rich cultures they serve bravely in overwhelmingly male parliaments and they organize and fight with or without men's consent for incremental democratic gains and sometimes for their own rights as women This collection brings together a distinguished cast of Arab women writers and other experts and analyzes the lives the diverse roles and the means of overcoming the challenges that confront women in today's Arab societies Essays examine feminism women's education and daily lives women's views of Islam and women Islamists and women's roles in war and literature It also includes interviews with women political leaders such as Palestine's Hanan Mikha'il Ashrawi and Jordan's Leila Sharaf Back cover
