CIMA E2 BPP Learning Media,2012-01-01 Question practice is essential for all papers but for E2 it is particularly important to be able to put the theories and techniques you have studied into practice E2 is an integrated paper but you learn the topics separately so it is only by doing questions that you can draw the different areas of the syllabus together Our Practice and Revision Kit follows the order of the text and there

are a large number of questions on all syllabus topics This is essential as all questions on the paper will be compulsory Our Practice and Revision Kit gives ample opportunity to practice both the 10 mark Section A questions and the longer Section B scenario questions Two mock exams also reflect this format Most questions have marking schemes so that you can see what skills and techniques the examiner values While there are some marks for textbook knowledge and you should make sure you get these many of the marks will be for applying this knowledge to the scenario in the question Even Section A questions often require this application
