tend to the reforming of one's way of life There is commonly more practical wisdom in a striking aphorism than in a round dozen of goody books that is to say books which are not good in the highest sense because their themes are overlaid with commonplace and wearisome reflections *Book of Wise Sayings by W. Book of Wise Sayings William Alexander Clouston,1893 *Book of Wise Sayings* W. A. Clouston,2010-09-03 Wise men from the East have provoked men's thoughts for centuries and their words live on Here are a few samples of the words of wisdom found in this book Nothing is more becoming a man than silence It is not the preaching but the practice which ought to be considered as the more important A profusion of words is sure to lead to error Talmud Let a man's talents or virtues be what they may we feel satisfaction in his society only as he is satisfied in himself We cannot enjoy the good qualities of a friend if he seems to be none the better for them Hazlitt Talents are best nurtured in solitude character is best formed in the stormy billows of the world Goethe Want and sorrow are the gifts which folly earns for itself Schubert We magnify the wealthy man though his parts be never so poor The poor man we despise be he never so well qualified Gold is the coverlet of imperfections It is the fool's curtain which hides all his defects from the world Feltham Pleasure most often delusive may be born of delusion Pleasure herself a sorceress may pitch her tents on enchanted ground But happiness or to use a more accurate and comprehensive term solid well being can be built on virtue alone and must of necessity have truth for its foundation Coleridge
