Electronic Brains; how Computers Work Rolf Lohberg, Theo Lutz, 1966 The Simon & Schuster Question & Answer Book, Computers Daniel Cohen, 1983 Presents in a question and answer format information about the history of computers how they work how to program them and their future potential *How Computers Entered the Classroom, 1960-2000* Carmen Flury, Michael Geiss, 2023-06-19 In the history of education the question of how computers were introduced into European classrooms has so far been largely neglected This edited volume strives to address this gap The contributions shed light on the computerization of education from a historical perspective by attending closely to the different actors involved such as politicians computer manufacturers teachers and students political rationales and ideologies as well as financial political or organizational structures and relations The case studies highlight differences in political and economic power as well as in ideological reasoning and the priorities set by different stakeholders in the process of introducing computers into education However the contributions also demonstrate that simple cold war narratives fail to capture the complex dynamics and entanglements in the history of computers as an educational technology and a subject taught in schools The edited volume thus provides a comprehensive historical understanding of the role of education in an emerging digital society *Computers in Swedish Society* Per Lundin, 2012-05-02 This book reviews the shift in the historiography of computing from inventors and innovations to a user perspective and examines how the relevant sources can be created collected preserved and disseminated The text describes and evaluates a project in Sweden that documented the stories of around 700 people The book also provides a critical discussion on the interpretation of oral evidence presenting three case studies on how this evidence can inform us about the interaction of computing with large scale transformations in economies cultures and societies Features describes a historiography aimed at addressing the question of how computing shaped and transformed Swedish society between 1950 and 1980 presents a user centered perspective on the history of computing after explaining the benefits of such an approach examines the documentation of users describing novel and innovative documentation methods discusses the pros and cons of collaborative projects between academia and industry

Dp-ed ,1970 **The New Book of Popular Science: Technology** ,2004 *How the New Technology Works* Robert J. Cone,1991 Information on principals and concepts of high technology and descriptions of selected high tech items Rand's Role in the Evolution of Balloon and Satellite Observation Systems and Related U.S. Space Technology Merton E. Davies,William Robert Harris,1988 This history commemorates the 40th anniversary of The RAND Corporation 1948 1988 RAND research studies aided in development of concepts system requirements and development programs for space satellites operational in the 1960s RAND research in 1946 1954 emphasized reconnaissance missions for balloons and electro optical TV reconnaissance satellites with data relay Thereafter RAND proposed use of recoverable film storage satellite payloads with simple guidance systems so that reconnaissance satellites could aid in arms control verification when intercontinental ballistic missiles ICBMs were deployed In the 1950s RAND space technology studies dealt with scientific exploration of the moon and solar system satellites for weather forecasting and for mapping missile launch detection and technology applications for the civil space program of the National Aeronautics and Space Administration Innovative studies of balloon reconnaissance platforms ICBMs uses of panoramic cameras for remote observation of earth and use of infrared satellites for missile launch warning resulted from researcher initiated studies Signal ,1993 **Finding Answers in Science and Technology** Alice Lefler Primack,1984 Information Systems Concepts for Management Henry C. Lucas,1990 **On Line** Janis Cromer,1989 **The Future of the Self** Jay Friedenberg,2020-08-04 We live in the digital age where our sense of self and identity has moved beyond the body to encompass hardware and software Cyborgs online representations in social media avatars and virtual reality extend our notion of what it means to be human This approachable book looks at the progression of self from the biological to the technological using a multidisciplinary approach It examines the notion of personhood from philosophical psychological neuroscience robotics and artificial intelligence perspectives showing how the interface between bodies brains and technology can give rise to new forms of human identity Jay Friedenberg present the content in an organized and easy to understand fashion to facilitate learning A gifted researcher author and classroom teacher he is one of the most influential voices in the field of artificial psychology

Man/society/technology ,1981 *New Scientist* ,1969
