Reeds 21st Century Ship Management John W Dickie, 2014-04-17 The first modern title to cover the varied and complex world of ship management in the 21st century Ship management has constantly had to evolve to take into account the advancements in technology as well as the demands of the shipping industry Having internet access and email on board ship has meant that the ship manager has to possess certain sets of skills to function effectively in the post including computer literacy The emergence of large multi national ship management companies has also changed how

business is conducted and this in turn means that the ship manager and tiers of management within the organization have had to evolve to cope with the demands of working with a multi national workforce Furthermore since the mid 1980s there has been an ever expanding raft of legislation that is more restrictive for companies to meet and a shrinking of profit margins has seen a shift in how companies are required to operate to survive This book addresses the demands of 21st century ship management with the focus of the book as much on the people who manage ships as on the theory and practice of ship management *IMO News*, 2016 **Reeds Marine Deck 2: Crammer for Deck Officer Oral Exams** Simon Jinks, 2023-09-14 A must have resource for students submitting to MCA oral exams Roger Seymour Senior RYA Examiner Hamble School of Yachting A no nonsense study guide helping seafarers to pass their MCA or Flag State oral exams for Deck Officer qualifications This handy revision guide is the one book that Deck Officer Cadets Master and Deck Officers will want by their side when studying for the much feared oral exams Expert marine training director Simon Jinks strips back the masses of information to the core essential points that are easy to absorb and quick to remember when it comes to the oral assessment Written in simple terms this trusted crammer covers all the principal areas of the MCA and Flag State exam syllabus for deck officers Officer of the Watch Chief Mate and Master including sections on business and law conventions pollution prevention responses to emergencies and distress signals Clearly presented and ideal for revision this handbook is packed with straightforward diagrams flow charts helpful sample questions and worked examples on tidal working radar plotting and more This is an invaluable reference for all international STCW Deck Officer candidates and covers both MCA and Flag State oral exams It is also suitable for Near Coastal and Boatmaster apprentices Workboat crew apprentices Yachtmaster Offshores Yachtmaster instructors and fishermen going for their fishing licences on larger vessels and for shore workers such as vessel superintendents maritime managers and trainers There is specific information for all vessels with sections on smaller code and domestic vessels *Marine Pollution Control* Iliana Christodoulou-Varotsi, 2018-04-24 This book discusses in a concise manner the key aspects that are important for the understanding of regulations and managerial framework governing marine pollution It identifies the practical context in which marine pollution comes into play and addresses the international legal regime governing the numerous sources of marine pollution as well as the ways in which these regulations affect the conduct of day to day shipping operations With illustrations case studies emphasis boxes references to case law and to national jurisdictions and other tools facilitating understanding and knowledge readers will find helpful guidance on the sources of marine pollution including ship source pollution and pollution from the offshore oil and gas sector the forms of cooperation needed in order to tackle the prevention management and response to marine pollution overview of MARPOL Convention other key IMO conventions and selected regional regimes legal ramifications including P involvement of the flag State coastal State and port State industry best practice the human element Marine Pollution Control will be a useful guidance tool for shipping Industry professionals P I Clubs Legal practitioners maritime administrators as

Decision Modes in Complex Task Environments Norbert Steigenberger,Thomas Lübcke,Heather Fiala,Alina Riebschläger,2017-05-25 Despite intense research on decision making in action we still know little about when decision makers rely on deliberate vs intuitive decision making in decision situations under complexity and uncertainty Building on default interventionist dual processing theory this book studies decision making modes deliberate vs intuitive in complex task environments contingent on perceived complexity experience and decision style preference We find that relatively inexperienced decision makers respond to increases in subjective complexity with an increase in deliberation and tend to follow their decision style preference Experienced decision makers are less guided by their decision preference and respond to increases in subjective complexity only minimally This book contributes to a developing stream of research linking decision making with intra personal and environmental properties and fosters our understanding of the conditions under which decision makers rely on intuitive vs deliberate decision modes In doing so we go one step further towards a comprehensive theory of decision making in action [Resolutions and Other Decisions](#)

International Maritime Organization. Assembly,2009 **Review of Maritime Transport** United Nations Conference on Trade and Development. Secretariat,2010 [Procedures for Port State Control 2011](#) International Maritime Organization,2012 Port state control PSC involves the inspection of foreign ships in national port areas to verify that the

condition and operation of a ship and its equipment comply with the requirements of international regulations While IMO has always acknowledged that enforcement of global maritime standards is the responsibility of flag states the organisation nevertheless recognises that exercising the right to carry out Psc makes an important contribution to ensuring those standards are implemented consistently on ships of different nationalities The sub committee on flag state implementation has developed and maintained a framework to promote the global harmonisation and co ordination of Psc activities resulting in the adoption of resolution A 1052 27 by the assembly of November 2011 This resolution contains the Procedures for port state control 2011 and revokes resolutions A 787 19 and A 882 21
