and grief may manifest in a child's daily behaviors. How do you recover from the pain of telling children mistruths about parental arrest and imprisonment? How does parental incarceration affect child development and the body-brain connection? Are children of incarcerated parents prone to incarceration themselves? With sensitivity and clarity, the authors address a range of questions including such tough topics as adverse childhood experiences (ACEs), trauma, childhood suicide ideation, and grief and loss. Readers will find evidence-based, trauma-informed interventions and practical tools to promote coping, emotional regulation, and stress reduction. Trauma-responsive and healing-centered approaches empower caregivers and their children to thrive in the face of daunting challenges.

iPad Mediated Instructional Strategy (iPMIS) for Enhancing Reading Skills in Children with Autism - A Research Study Dr. Anita Paul, Dr. T. Geetha, 2022-12-06

Creating Reading Instruction for All Children Thomas G. Gunning, 1996 This book will not tell you how to teach reading. Teaching reading is in large measure a matter of making choices. Should you use basal readers or children's books or both? Should you teach children to read whole words or to sound out words letter by letter or both? Should you have three reading groups or four or no groups? There are no right answers to these questions. The answers depend on your personal philosophy, your interpretation of the research, the level at which you are teaching, the kinds of students you are teaching, community preferences, and the nature of your school or school district's reading program.

The Literate Kindergarten Susan L. Kempton, 2007 This very important book reaffirms the beauty and uniqueness of children's developing minds and the power that is unleashed when their imaginations are nurtured. Susan Zimmermann's Kindergarten has changed and not necessarily for the better. Once a joyful time when children grow into school gradually, today it often resembles a watered-down first grade where academic pressures squelch creativity and play. *The Literate Kindergarten* shows how carefully balancing academics with song, movement, talk, and play creates an environment where every child can grow and learn. Sue Kempton is a master teacher, and in *The Literate Kindergarten* she shares the thinking, the structures, even the precise language she uses to help young children become motivated, engaged, and joyful learners. Kempton guides you through the three domains of learning on which she bases her lessons and actions: the cognitive, creative, and emotional. With this framework in mind, Kempton offers clues to interpreting children's talk and body language so that you know which domain they are engaged in, as well as specific questions and phrases that draw out their thinking and make learning visible. From there, *The Literate Kindergarten* offers effective suggestions for establishing routines and creating cooperation, developing oral language, modeling the language of thinking, teaching across content areas, supporting students as they become socialized to school, recognizing the vital importance of integrating music, movement, and play, familiarizing children with concepts of print, comprehension strategies, and other important literacy habits. Discover thoughtful ways to create a safe, nurturing, predictable learning space for children where their thoughts and feelings are encouraged. Read *The Literate Kindergarten* and discover a comprehensive resource that can bring joy and serious learning to your classroom.
