classwork and tests are not randomly selected from the chapters in focus. Instead, they are very comprehensive in that every type of problem students learn about in their textbook or complete as a class on the interactive whiteboard will also be solved individually by students on the classwork assignments and corresponding tests. Moreover, page numbers where students can turn to for help in their textbooks are specified at the beginning of the assignments and in the case of the assignments exclusively for grades 3rd through 5th, beside the individual problems. Tutorial videos are available in the electronic textbooks. The classwork is graded by the teacher and the number of problems missed on each page can be recorded at the bottom (0, 3, etc.). It is recommended that students be allowed to correct any problems with checkmarks before the final grade for the assignment is determined. Correcting errors from the classwork tends to help students to do better on the tests. Time should be allotted daily for students to work on the assignments.
