Robot Souls Eve Poole, 2023-08-01 Two of the biggest design problems in Artificial Intelligence are how to build robots that behave in line with human values and how to stop them ever going rogue One under explored solution to these alignment and control problems might be to examine how these are already addressed in the design of humans Looking closely at the human blueprint it contains a suite of capacities that are so clumsy they have generally been kept away from AI It was assumed that robots with features like emotions and intuition that made mistakes and looked for meaning and purpose would not work as well as robots without this kind of code But on considering why all these irrational properties are there it seems that they emerge from the source code of soul Because it is actually this junk code that makes us human and promotes the kind of reciprocal altruism that keeps humanity alive and thriving Robot Souls looks at developments in AI and reviews the emergence of ideas of consciousness and the soul It places our junk code in this context and argues that it is time to foreground that code and to use it to look again at how we are programming AI The book author Eve Poole received an OBE in the 2023 New Year Honours for services to education and gender equality

The World in Words Daniel Joseph Majchrowicz, 2023-06-15 Based on over a decade of original archival research this book shows how Urdu travel writing gave voice to a global imagination that reflected the ambition and aspiration of Indians and Pakistanis as they negotiated their place in the changing world of the nineteenth and twentieth centuries In this interdisciplinary study author Daniel Majchrowicz traces the social and literary history of the Urdu travelogue from 1840 to 1990 in six chronological chapters Each chapter asks how travel writers used the genre to give meaning to the shifting social and political realities of their colonial and postcolonial worlds The book particularly highlights the role of women writers in the production of a global imagination in Urdu with an emphasis on travel writing on Asia and Africa

C.S. Lewis and Christian Postmodernism Kyoko Yuasa, 2016-04-19 Employing a postmodernist literary approach this book identifies C S Lewis both as an antimodernist and as a Christian postmodernist who tells the story of the gospel to twentieth and twenty first century readers Lewis is popularly known as an able Christian apologetic writer talented in explaining Christian beliefs in simple logical terms But his fictional works feature expressions that erect ambiguous borders between nonfiction and fiction an approach equivalent to those typical in postmodernist literature Whereas postmodernist literature is full of many small micronarratives that deconstruct the Great Story Lewis's fictional world is the reverse of this in his world multiple and small stories are chosen but they also ultimately express the Story that transcends human understanding Lewis's approach reflects both his

opposition to modernist philosophy which embraces solidified interpretation and his criticism of modernized Christianity Lewis's fictional works focus on the history of interpretation and deconstructing interpretations of the previous age seek a new model for interpretation Both C S Lewis and postmodern writers force us to choose between alternative interpretations

Publishers Weekly, 1985 *Medievalist Comics and the American Century* Chris Bishop, 2016-08-25 The comic book has become an essential icon of the American Century an era defined by optimism in the face of change and by recognition of the intrinsic value of democracy and modernization For many the Middle Ages stand as an antithesis to these ideals and yet medievalist comics have emerged and endured even thrived alongside their superhero counterparts Chris Bishop presents a reception history of medievalist comics setting them against a greater backdrop of modern American history From its genesis in the 1930s to the present Bishop surveys the medievalist comic its stories characters settings and themes drawn from the European Middle Ages Hal Foster's Prince Valiant emerged from an America at odds with monarchy but still in love with King Arthur Green Arrow remains the continuation of a long fascination with Robin Hood that has become as central to the American identity as it was to the British The Mighty Thor reflects the legacy of Germanic migration into the United States The rugged individualism of Conan the Barbarian owes more to the western cowboy than it does to the continental knight errant In the narrative of Red Sonja we can trace a parallel history of feminism Bishop regards these comics as not merely happenstance but each success Prince Valiant and The Mighty Thor or failure Beowulf Dragon Slayer as a result and an indicator of certain American preoccupations amid a larger cultural context Intrinsically modernist paragons of pop culture ephemera American comics have ironically continued to engage with the European Middle Ages Bishop illuminates some of the ways in which we use an imagined past to navigate the present and plots some possible futures as we valiantly shape a new century
