**11 Steps to Powerful Public Speaking** Jacki Rose,2010 Public speaking can be fun You may not think so but anything in life can be fun if we allow it to be Even public speaking There are three groups of people when it comes to the attitude of public speaking The Naturals The Converters The Avoiders The Naturals are people who have always enjoyed presenting in front of an audience They are hardly ever nervous they are not afraid to show their true personality and they usually feel very comfortable with all eyes on them when they are speaking This is the minority a rare group compared to most people in our society The Converters are those who have been converted from once hating public speaking or just not liking it very much or just gosh darn afraid of it to actually enjoying it and even having fun with it They went through the process of learning the skills practicing and improving They took action in overcoming their negative attitude and or fears towards public speaking They practiced every chance they could and they began to believe they were capable of being a good or great presenter These people have learned to actually enjoy public speaking find it fun and some have even gone on to become professional speakers This is the group I fit into The Avoiders are people who hate public speaking fear it and wish it could be avoided at all costs If this is you congratulations you are normal and in the majority The good news is you can easily become a converter if you want to and most likely you do because you are reading this book All you have to do to become a converter to go from avoiding public speaking to enjoying it is to learn the skills that are presented in this book practice them at every opportunity you get and then practice some more The more you actually get up and practice the more comfortable you will become And once you are comfortable speaking in front of others your entire life will change After all how we present determines the level of our success The more confident dynamic and engaging you are the more your audience will listen to you believe what you have to say learn from you and do business with you Whether you are a Natural a Converter or an Avoider you will benefit from this book

these topics there should be no reason for any doubt to remain about how the public speaking communication process works. The more correctly a person expresses his thoughts the more easily he achieves his life goals. The ability to possess information, work with information and easily and competently transmit it, these are the qualities of a modern successful person. The word is not only a means of communication and exchange of information but it is also a tool for influencing the consciousness and will of people in order to educate them, form beliefs and mobilize them for specific cases. And such tasks can only be accomplished by a remarkable person which is what those who master the art of rhetoric become: a special science about the laws of invention, arrangement and expression of thoughts and speech. No wonder it was called in ancient times the art of controlling the minds. Plato and was placed on a par with the art of a commander. Cicero and its strong influence recognized as vital in the development of society and the state. Naturally many scholars have devoted their treatises to oratory, wanting to find new tricks and methods with which to make speech convincing. And today practitioners and researchers in the field of oratory are also worried about the questions. The task of this book is precisely to answer these questions drawing on the experience of the author and researchers. First of all from A to S an algorithm for working on a public speech is given. The theory is supported by practical work by performing which the reader will consolidate the knowledge received. Would you like to know more? Download now to learn how to communicate.
