**Guitar Chords** Nikolay Rantsev, 2018-11-17 All the books out now telling you how to play don't mean a thing What you feel is what you should be playing not something someone else wrote down All I can say is learn the fundamentals on your guitar get to know your guitar and don't get a big head There's always going to be someone else better Just play what you know what's inside of you Pee Wee Crayton Guitar Player July 1977 This book is all about fundamentals intervals and chords Congratulations you have a new amazing hobby guitar You already memorized basic chords or played few favorite songs Now you want to understand more about chords What is actually behind C Major chord in a simple handy position on the first fret Why the same chord is also located on the third fret Where can I find more C Major chords on the neck and how many these chords totally on the neck Intervals triads chord theory looks boring and complex For me too After reading the book you'll be able to build Minor Major and Dominant chords from any root note on the fretboard For most cases this is more than enough at the beginning of your guitar journey No more learning by rote just understanding through a visualization and practice What exactly is behind Minor Major and Dominant chords What are their basic building blocks and how can I create my own shape of the chord if I forget the chord diagram The chord theory is not a rocket science This book explains it through the very simple bricks the intervals You are the guitarist and that's why you want to understand the chord theory using the fretboard Not the piano keyboard as many other books referring to The expected result will be much deeper if you practice all the concepts with your instruments in a hand and notebook with a pencil Book diagrams finger memory singing the notes draw on your own This is the fundamental way of learning basic music concepts Every chapter demonstrates one of the elements of chord construction Finally we'll put together all the pieces in one picture And you'll grow your skill You can choose any direction in a world of guitar in future rhythm guitar or solo And you'll see these basic elements everywhere
