[Ancient Corinth](#) American School of Classical Studies at Athens, 1928      **Ancient Corinth** James Herbst, Jennifer Palinkas, Guy D.R. Sanders, Ioulia Tzonou-Herbst, 2018-04-30 This is the first official guidebook to the site of ancient Corinth published by the ASCSA in over 50 years and it comes fully updated with the most current information color photos maps and plans It is an indispensable resource for the casual tourist or professional archaeologist new to the site The guide begins with a history of Corinth and its excavations and then presents two tours The first takes visitors through the archaeological site from the Temple of Apollo to the Forum the Fountain of Peirene and more The second tour covers the ancient monuments outside the fenced area of the site including the Odeion the Theater and the Asklepieion and then the various remains of ancient Corinth located within and outside the ancient Greek walls including the Sanctuary of Demeter and Kore and the Lechaion Basilica Short bibliographic notes for many entries lead the reader to fuller descriptions of monuments objects and concepts a glossary is also provided Interspersed in the text are topographical notes and focus boxes on special topics such as geology Pausanias St Paul and prehistoric Corinth and the Corinthia      *Ancient Corinth* John Gerald O'Neill, 1930

**Corinth** Charles River Charles River Editors, 2017-10-03 Includes pictures Includes ancient accounts of Corinth Includes online resources and a bibliography for further reading Modern perceptions of Classical Greece are almost invariably based on Athens and Sparta but Corinth was also a key city state in antiquity When St Paul visited in 51 CE the Corinth he saw was actually a relatively new city having been built a little over 100 years previously but he found a city five times larger than Athens at that time and one which was the capital of a prosperous province However ancient Corinth had actually been founded in the 10th century BCE and was for most of its history the richest port and the largest city in all of Greece Corinth had a population in excess of 90 000 in 400 BCE but the Romans leveled this original city in 146 BCE killing all the male inhabitants and selling the women and children into slavery The few that survived fled to Delos and for the next 100 years the site was deserted until Julius Caesar rebuilt it in 44 BCE The story of the rise and fall of this powerful polis is intriguing as are the reasons for ancient Corinth's reputation throughout the Greek world for its licentiousness One of the Greek words for fornication was korinthiazomai and while the city's association with sacred prostitutes scandalized contemporary Athenians in particular it also made the city a favorite destination for many Greeks Corinth was also where so much of what became recognized as Greek art and architecture was first developed and it was here that Eastern influence on Greece can first and most obviously be detected The destruction of ancient Corinth marked the end of free Greece but despite the integral role it played in Hellas Corinth has never been recognized as a great military or naval power in the way that Athens and Sparta have It did not boast any exceptional schools of philosophy nor are there any great buildings still remaining to attest to its successes Corinth's contribution to the spread of Greek civilization however matches if not surpasses all of the more well known poleis Corinth also acted as a gateway for many of the artistic ideas from the East that local artisans

adapted and developed to produce their own uniquely Corinthian style of pottery and art In architecture too Corinth s contribution was significant and the Corinthian style was utilized throughout Greece and the Greek world especially in relation to temple building The quintessential Greek ship the trireme was first developed in Corinth and its role in defeating the Persians a defeat that most historians agree changed world history is still understated probably because of the credence given to Herodotus claims about the Corinthians behavior in that war The fact that the city was reestablished by Julius Caesar and even today is a highly important center of trade suggests that Corinth was destined to be a hub of trading activity and a prosperous city Still the advantages conferred by a favorable geographic position had to be seized and this ancient Corinth did Its impact on the ancient Greek world and hence its influence on Western civilization should not be underestimated even as it mostly continues to be Corinth The History and Legacy of the Ancient Greek City State examines the history of one of Greece s most important poleis Along with pictures depicting important people places and events you will learn about Corinth like never before Ancient Corinth American School of Classical Studies at Athens,Rhys Carpenter,1936 Archaeology and History in Roman, Medieval and Post-medieval Greece William Caraher,Linda Jones Hall,R. Scott Moore,2008 Bringing together studies of archaeological method and analysis with detailed work of historical interpretation the papers here demonstrate how analysis informed by multiple disciplines sheds new light on such important topics as the end of Antiquity the so called Byzantine Dark Ages the contours of the emerging Byzantine civilization and the complex character of identity in post medieval Greece More broadly this volume shows how the study of the material culture of post classical Greece has made significant contributions to both the larger archaeological and historical discourse

**Corinth, the Centenary, 1896-1996** Charles K. Williams,Nancy Bookidis,2003 Twenty five papers presented at the December 1996 symposium held in Athens to celebrate the 100th anniversary of the American School of Classical Studies excavations at ancient Corinth The papers are intended to illustrate the range in subject matter of research currently being undertaken by scholars of ancient Corinth and their inclusion in one volume will serve as a useful reference work for nonspecialists Each of the topics which vary widely from Corinthian geology to religious practices to Byzantine pottery is presented by the acknowledged expert in that area The book includes a full general bibliography of articles and volumes concerning material excavated at Corinth As a summary of one hundred years research it will be useful to generations of scholars to come **The Americana** Frederick Converse Beach,George Edwin Rines,1912 **Corinth in Late Antiquity** Amelia R. Brown,2018-02-22 Late antique Corinth was on the frontline of the radical political economic and religious transformations that swept across the Mediterranean world from the second to sixth centuries CE A strategic merchant city it became a hugely important metropolis in Roman Greece and later a key focal point for early Christianity In late antiquity Corinthians recognised new Christian authorities adopted novel rites of civic celebration and decoration and destroyed rebuilt and added to the city s ancient landscape and monuments Drawing on evidence from ancient literary sources

extensive archaeological excavations and historical records Amelia Brown here surveys this period of urban transformation from the old Agora and temples to new churches and fortifications Influenced by the methodological advances of urban studies Brown demonstrates the many ways Corinthians responded to internal and external pressures by building demolishing and repurposing urban public space thus transforming Corinthian society civic identity and urban infrastructure In a departure from isolated textual and archaeological studies she connects this process to broader changes in metropolitan life contributing to the present understanding of urban experience in the late antique Mediterranean **The Americana**, 1923 New Ways of Communicating Archaeology in a Digital World Sofia Fonseca, Ben Thomas, Aurélie

Basterrechea, 2024-10-30 This book examines the communication and interaction between archaeologists and the non archaeological public in a digital age Moving beyond traditional methods the book focuses on communication through new YouTube MOOCs TEDx etc and alternative media virtual and augmented reality video games comics etc that connect a traditional archaeological world to a modern digital one By featuring case studies that make this point the volume argues for the need to integrate new technologies and media like online education storytelling podcasting and augmented and virtual reality into archaeologists efforts to communicate their work to the broader society Drawn from a session at the European Association of Archaeologists Annual Conference in 2018 the book was expanded and enhanced by the inclusion of presentations from the 2020 conference and additional invited papers The volume presents a variety of approaches to archaeological education that highlight the need for creativity and resourcefulness in re thinking archaeological presentations in a digital and virtual environment This volume is of interest to archaeologists as well as researchers and practitioners in museology and heritage and serves as a guide for archaeologists interested and involved in the world of non academic communication This book invites the reader to be part of a movement that is redefining the dialogue between our past and the future of communication learning and digital storytelling **The Regional Production of Red Figure Pottery** Stine Schierup, Victoria Sabetai, 2014-10-27

In the latter part of the fifth century BC regional red figure productions were established outside Attica in regional Greece and in the western Mediterranean propelled by the impact of the art of Attic vase painting This collection of papers addresses key issues posed by these production centres Why did they emerge To what degree was their inception prompted by the emigration of Attic craftsmen in the context of the weakened Attic pottery market at the onset of the Peloponnesian War How did Attic vase painting influence already existing traditions and what was selected adopted or adapted at the receiving end Who was using red figure in mainland Greece and Italy and what were its particular functions in the local cultures These and more questions are addressed here with the presentation not only of syntheses but also primary publication of much newly discovered material Regional production centres covered include those of Euboea Boeotia Corinth Laconia Macedonia Ambracia Lucania Apulia Sicily Locri and Etruria *Frommer's Europe* Darwin Porter, 2004-08-27 Suggests lodging food and sightseeing highlights along with travel tips and cultural information
