

## **Guidelines for Writing An APA Style Lab Report**

Research articles in psychology follow a specific format as set forth by the American Psychological Association (**APA Style**). The following sections describe the major components of this format. You will be responsible for following all of the stylistic rules set forth in this appendix when you write your lab reports. If you desire further information about any of these rules, please refer to the *APA Publication Manual* (5th edition).

### **I. Margins, Spacing, and Font**

- Margins are 1 inch all around.
- Everything in the paper is double-spaced.
- A manuscript page header, which includes the first 2 or 3 words of the title followed by five spaces and then a page number, appears in the upper right hand corner of every page.
- Font is 12 point (or equivalent), and is Times New Roman

### **II. Title Page**

- The title page is the first page of your lab report.
- Running head
  - The running head is a short form of the paper's title that must make sense.
  - The running head goes at the top of the page, at the left margin, and is typed in all capital letters.
  - Type "Running head:" followed by the abbreviated version of the title.
  - The running head can contain no more than 50 characters.
  - e.g. Running head: GENDER AND AGGRESSION
- Title
  - The title should be concise and specific (usually not more than 12-15 words).
  - The title should be centered, and all major words should be capitalized.
  - Avoid using phrases such as "An experiment on", "A study of", or "The effect of."
- Author's name
  - Your name goes on the line below the title, and is centered as well.
  - On the line below your name, list your affiliation (e.g. Lafayette College)
- The title, author's name, and affiliation should also be centered on the page vertically.

### **III. Abstract**

- The abstract is the second page of your lab report.
- It is a very concise summary of the whole report that is normally written after the paper is complete.
- The abstract should indicate the purpose of the study and summarize the main findings.
- You should try to have something about each section (Introduction, Method, Results, and Discussion) in your abstract.
- The first line of this page should say, "Abstract" and should be centered.
- This abstract should be no longer than 120 words.
- The abstract is not indented.
