[Ruling the Mongols of Manchuria](#) Jiani He, 2025-10-01 At the turn of the twentieth century the Jirim League witnessed a linguistic struggle between Manchu Mongol Chinese Japanese and Russian powers The Qing Empire envisioned a trilingual educational system with the aim of improving the Jirim Mongols ability to read Chinese Manchu and Mongolian Through this policy the Qing sought to transform loyal imperial subjects into modern patriotic nationals and incorporate them into an integrated and united China under a Manchu constitutional monarchy The late Qing's language policy and strategy for ruling the Mongols of Manchuria

was an attempt to address the enduring multilingual legacies in Qing administration and people's everyday life growing local ethnic tensions cross boundary connections imperial rivalries and the rise of new ideas concerning nation modern state and international relations in East Asia This book challenges the notion of Chinese language reform as a story of linear progression towards national monolingualism highlights the power of multilingualism in Chinese nationalist discourse from a peripheral non Han Chinese perspective and questions the extent to which national languages dominate the writing of history

The Tarikh-i Hamidi Musa Sayrami, 2023-07-25 The Tarikh i amidi is an epic and tragic history from the region of Xinjiang in northwest China the homeland of the Muslim majority Uyghur people Written in the early twentieth century it chronicles a mass rebellion by the Muslims of Xinjiang against the China based Qing empire from its beginnings in 1864 to the Qing reconquest of 1877 and its aftermath Its author Musa Sayrami was an eyewitness to and participant in the rebellion and he later became a servant to the state that arose from it an emirate led by the Central Asian military commander Ya qub Beg Sayrami documents the optimism of the rebellion's early days when local Muslims rose up to demand justice as well as the tragedies that resulted from its leaders hubris Ya qub Beg's state offered hope for Islamic rule but he turned out to be a flawed ruler and the Qing reconquered the region The narrative alternates

unrelated Another example is how Chinese culture and writing systems spread throughout East Asia into Korea Japan and Vietnam though the languages of these countries were linguistically unrelated to Chinese The same case can be made for Buddhist ways of thinking when it was clothed in the garb of Chinese or Tibetan or one of the other languages along the Silk Road This is also true for the spread of Manicheism as it was portrayed in a great number of languages related or unrelated German and Latin are linguistically related but when Latin learning was communicated in Old High German many of its terms were created in Middle German to accommodate the Latin conceptual world and the German language was lastingly enriched with novisms denoting concepts of the Classical traditions of learning in a process parallel to the spread of Greek Christianity into the East European cultures and languages The book describes some cases of such knowledge transfer and what kind of mechanisms are involved in the ensuing language changes in the receiving languages and cultures
