Ian Harrison,1996 This Accounting A Level study guide is intended to give students the best possible chance of success It is designed for use both throughout the course as a supplement to studies and as a revision guide for the final approach to examinations The focus of the book is on the techniques needed to pass with the best possible grades *Cambridge International AS and A Level Accounting Textbook* Harold Randall,David Hopkins,2012-07-05 Cambridge International AS and A Level Accounting has been endorsed by University of Cambridge International Examinations Cambridge International AS and A Level Accounting offers a thorough coverage of the Cambridge AS and A Level Accounting syllabus It includes the latest changes of the syllabus especially the introduction of International Accounting Standards IAS The combination of easily understandable content and practice questions makes this book an ideal resource to support teaching and learning for use both during the course and as an aid to revision *Ebook: Essentials of Accounting for Governmental and Not-for-Profit Organizations* Paul Copley,2014-10-16 Copley s Essentials of Accounting for Governmental and Not for Profit Organizations 12e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting The approach in this edition is similar to that used in practice Specifically day to day events are recorded at the fund level using the basis of accounting for fund financial statements Governmental activities are recorded using the modified accrual basis The fund basis statements are then used as input in the preparation of government wide statements The preparation of government wide statements is presented in an Excel worksheet **A Data Base Management Approach to Privacy Act Compliance** Elizabeth Fong,1977 *The Politics of Peasants* Shukai Zhao,2017-07-10 This book is an analysis and exploration of the relationship between peasants and policies within the process of reform in China After examining the long term rural policies either before or after the reform it was found that all these polices have been expected to promote peasants interests and claimed to take enhancing peasants happiness as their goal Nonetheless the history and current reality of rural development have demonstrated that the same policy starting point had lead to very different policy designs Even today quite a few institutional arrangements with good intentions have ended up with opposite results and have even become bad policies that do harm to people This book argues that the reason for such serious deviation between political intentions and institutional arrangements as well as between policy goals and its results is as a political force the peasantry itself has not effectively engaged with the political process of the country *Whitaker's Books in Print* ,1998
