

BMW Bluetooth Kit Installation Instructions for BMW 3 Series / M3 Coupe, Sedan, Convertible 03/02-MY06 (E46)

What you MUST know before you begin:

- **Please review and familiarize yourself completely with these instructions before starting work on your vehicle!**
- **Note that the instructions that follow are written by BMW, not Bavarian Soundwerks.**

Therefore, some variations from these instructions exist in the installation process. They are as follows:

1. **Our kit does not include a Bluetooth ULF Module mounting bracket.** We do not include this part due to the large variation in existing bracketry among various vehicles. Additionally, mounting the ULF module is faster and easier using the included zip ties / Velcro. This saves YOU time!
 2. **Our kit does not include an Original BMW Pairing Button.** As a result, you will not be modifying your center console to install the pairing button. Why? First, BMW is out of stock indefinitely on these pairing buttons. Second, since the pairing button is used so infrequently, it makes MORE sense to avoid modification of the vehicle and simply tuck it away under the e-brake boot, easily accessible as needed.
 3. **Your vehicle DOES NOT need programming at the dealership to work properly.** Just install the kit and you're set!
 4. **If you have a Convertible, no SES jumper plug installation is required and this step can be skipped entirely.**
- **The Bluetooth Antenna FAKRA connector can be very difficult to find in the center console area and is sometimes buried WAY below the carpet.** We promise it's there – KEEP LOOKING!
