Trade Secrets and Employee Mobility: Volume 44 Magdalena Kolasa, 2018-02-08 In the increasingly knowledge and innovation based economy in which the mobility of the workforce is vital employees and ex employees are considered to be one of the biggest threats to the existence of trade secrets The interests of the former parties to the employment relationship are contradictory employers want to safeguard their competitive position by limiting use of information and employees want to use that information to pursue their professional career Magdalena Kolasa analyses existing guidelines that determine the extent to which former employees may use information learned during service She proposes criteria for a balanced enforcement of trade secrets discussing the statutory and implicit confidentiality duties contractual protection and remedies Drawing from the laws of Germany UK and USA and considering the EU Trade Secrets Directive this book advocates an approach which recognises the value and functions of trade secrecy both within companies and in the context of public policy

The Politics of Making Kinship Erdmute Alber, David Warren Sabean, Simon Teuscher, Tatjana Thelen, 2022-12-09 The long tradition of Western political thought included kinship in models of public order but the social sciences excised it from theories of the state public sphere and democratic order Kinship has however neither completely disappeared from the political cultures of the West nor played the determining social and political role ascribed to it elsewhere Exploring the issues that arise once the divide between kinship and politics is no longer taken for granted *The Politics of Making Kinship* demonstrates how political processes have shaped concepts of kinship over time and conversely how political projects have been shaped by specific understandings idioms and uses of kinship Taking vantage points from the post Roman era to early modernity and from colonial imperialism to the fall of the Berlin Wall and beyond this international set of scholars place kinship centerstage and reintegrate it with political theory
