

Exercise 1.1 Accounting principles

a

Accounting principle	<i>Entity</i>
Explanation	<i>The owner and the business are considered to be separate accounting entities, and their records should be kept on this basis. The orthodontist's fees are an expense of the owner, not an expense of the business, and should be recorded as 'Drawings'</i>

b

Accounting principle	<i>Consistency</i>
Explanation	<i>The same accounting methods should be applied from one period to the next so that reports can be compared between periods. The owner will be unable to identify any changes in repair or vehicle expenses.</i>

c

Accounting principle	<i>Monetary Unit</i>
Explanation	<i>Transactions should be recorded in a common unit of measurement – in Australia, this means Australian dollars.</i>

d

Accounting principle	<i>Reporting Period</i>
Explanation	<i>The life of the business is divided into arbitrary periods to allow for reports to be prepared. The transaction should be recorded as revenue when it was earned (when the goods were supplied), i.e. in December 2014.</i>

e

Accounting principle	<i>Historical Cost</i>
Explanation	<i>Transactions should be recorded at their original purchase price as this value is verifiable by a source document. The revaluation is subject to subjectivity, and not verifiable.</i>
