The Passenger: Turkey The Passenger, 2021-01-12 Turkish culture and history is explored in the wide ranging series that is like a literary vacation Publishers Weekly The birth of the New Turkey as the country's President Recep Tayyip Erdogan has called his own creation is an exemplary story of the rise of illiberal democracies through the erosion of civil liberties press freedom and the independence of the judicial system Turkey was a complex country long before the rise of its new sultan Born out of the ashes of a vast multi ethnic and multi religious empire Turkey has grappled through its relatively short history with the definition of its own identity Poised between competing ideologies secularism and piousness a militaristic nationalism and exceptional openness to foreigners Turkey defies easy labels and categories Through the voices of some of its best writers and journalists many of them in self imposed exile The Passenger Turkey tries to make sense of this fascinating maddening country analyzing how it got to where it is now and finding the bright spots of hope that allow its always resourceful often frustrated population to continue living and thriving In this volume The Big Dig by Elif Batuman A Story of Dust and Light by Burhan S nmez An Author Recommends by Elif Shafak Plus the thirty year coup and the dam that is washing away 12 000 years of history and more

Youth Transitions among Descendants of Turkish Immigrants in Amsterdam and Strasbourg: Elif Keskiner, 2019-04-16 This open access book maps the youth transitions of descendants of migrants from Turkey living in Amsterdam and Strasbourg through a comparative mixed methods research design As such it is of interest to discussions in youth sociology social mobility and second generation research The book follows transition trajectories of the second generation from school to activity or inactivity in the labour market to marriage or further study and deepens our understanding of transitions by unravelling the macro and micro mechanisms behind individual pathways On the one hand the author reveals the ongoing significance of distinct macro institutional settings as well as social structures such as social class ethnicity and gender in shaping the youth transition experience On the other she shows that youth transitions are not predestined to social reproduction when institutional and social structures create conditions for the development of resources necessary for social mobility Therefore through an examination of how immigrants descendants develop forms of capital in their social trajectories in relation to institutional and social structures the book advances the theoretical discussion on Bourdieu's capital theory Moreover in times when native born descendants of immigrants are at the forefront of public debate being subjected to normative integration demands the book significantly shifts the lens and draws our attention to the daily challenges and realities faced by ethnic minority youth
