

Shuffle the Deck

A pharmaceutical company is testing a new drug for diabetes patients. Due to various side-effects, they start with a very small sample, ten subjects for their first trial. The subjects take the medication with their evening meal. After the meal they test their blood sugar (mg/dL). The hope is that the blood sugar levels will be lower with the new medication. Five subjects were kept in a control group and five took the medication, randomly assigned. Here are the data.

treatment	185	163	125	151	101
control	190	175	178	135	201

Make ten slips of paper (3x5 cards work well) with each of the ten blood sugar levels written on them. Shuffle. Randomly assign five cards to the treatment group and five to control. Calculate the mean difference between the groups. Repeat. 25 times!

1. Graph the mean differences you obtained. You should have 25 such differences. Indicate on the graph the difference from the actual experiment lies.

2. What do you conclude? Is the difference observed in the experiment one that could have happened by random chance? Or does it appear that the difference is unusual and was due to the medication being administered to the five subjects?

THE VANISHING 'SHINING CITY ON A HILL' Patrick R. Romain, 2025-10-09 The U S liberal democratic capitalist system has fallen short of its pronouncements This is evident in the notable challenges faced by the middle class whose economic and social conditions have deteriorated leading to discontent apathy and a decline in public trust in the country s key institutions Moreover the United States has experienced a decline in its global role influence and reputation Once viewed as a beacon of democracy and a leader on the world stage even if not always merited America s standing has been undermined by several internal and external challenges Political polarization an inconsistent and ineffectual foreign policy and the absence of a unified vision have diminished allies trust and emboldened adversaries Critically the U S media has failed in its essential role to shield the American public from abuses of power and to help establish a reliable and independent framework to identify the risks that threaten core American democratic values I hope that by reading this book American workers parents students legislators judges corporate leaders entrepreneurs politicians religious and spiritual leaders financial regulators journalists and aspiring citizens will be reminded of America s strength and promise and recognize the significant impact that individual action or inaction has on the quality of the U S way of life and sustainability of its ideals Remaining silent disengaged or vilifying other Americans has put our children grandchildren and future generations at risk I also hope that the book s contents will in some small measure help counter the pandemic of disinformation and discord infecting U S political discourse
