Artificial Intelligence for Business Analytics Felix

Weber, 2023-03-01 While methods of artificial intelligence AI were until a few years ago exclusively a topic of scientific discussions today they are increasingly finding their way into products of everyday life At the same time the amount of data produced and available is growing due to increasing digitalization the integration of digital measurement and control systems and automatic exchange between devices Internet of Things In the future the use of business intelligence BI and a look into the past will no longer be sufficient for most companies Instead business analytics i e predictive and predictive analyses and automated decisions will be needed to stay competitive in the future The use of growing amounts of data is a significant challenge and one of the most important areas of data analysis is represented by artificial intelligence methods This book provides a concise introduction to the essential aspects of using artificial intelligence methods for business analytics presents machine learning and the most important algorithms in a comprehensible form using the business analytics technology framework and shows application scenarios from various industries In addition it provides the Business Analytics Model for Artificial Intelligence a reference procedure model for structuring BA and AI projects in the company This book is a translation of the original German 1st edition K nstliche Intelligenz f r Business Analytics by Felix Weber published by Springer Fachmedien Wiesbaden GmbH part of Springer Nature in 2020 The translation was done with the help of artificial

intelligence machine translation by the service DeepL.com. A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

The Digital Journey of Banking and Insurance, Volume III Volker Liermann, Claus Stegmann, 2021-10-27. This book is the third one of three volumes. It focuses on data and the actions around data like storage and processing. The angle shifts over the volumes from a business-driven approach in Disruption and DNA to a strong technical focus in Data Storage Processing and Analysis, leaving Digitalization and Machine Learning Applications with the business and technical aspects in between. In the last volume of the series Data Storage Processing and Analysis, the shifts in the way we deal with data are addressed.
