Salbrina Sharbawi,David Deterding,Nur Raihan Mohamad,2024-09-04 This book is a revised and updated edition of the first ever monograph wholly dedicated to the systematic linguistic description of Brunei English Deterding and Salbrina 2013 provided a comprehensive coverage of the history structural properties on the levels of pronunciation grammar discourse and vocabulary and social and educational settings of Brunei English After almost a decade several notable changes have since been observed in the Bruneian variety of English and this second edition chronicles the ongoing narrative of language change and discusses the current trends in the use of Brunei English In addition to presenting a contemporaneous account of English in Brunei this book also incorporates the role of variation within this variety thereby addressing a limitation of the first edition The book also provides a discussion on the impact the rise of English has had in the shaping of the Bruneians sense of self and their interactions between and across social groups Based on the newly acquired data the book re assesses Brunei English s position in the context of Global Englishes Unsettling Absences Eric C. Thompson,2007 In *Unsettling Absences* Eric Thompson argues that urbanism is a cultural force unbound from the city and is a pervasive presence in the Malaysian countryside Transported to rural communities urbanism has motivated migration transformed the social lives of rural inhabitants and created a deep ambivalence about personal identity This has left rural Malays feeling out of place in both the city and the village Kuala Lumpur epitomises modernity but rural Malays who move there are often marginalised in squatter settlements on its periphery The kampung symbolises home and the locus of Malay identity but schoolbooks and television have projected urbanism that marks rural life as backwards and marginal in a forward looking nation into the kampung The book challenges city bound urban studies by locating urbanism in a wider world that extends outside of the city and shows the conflicted realities of rural dwellers in an overwhelmingly urban world As others have challenged the meaning of modernity Thompson challenges the meaning of urban while still recognising the powerful effects of an ideology of urbanism *Unsettling Absences* is a call to take seriously place based identities and cultural geographies in a world where the urban rural divide is dissolving in practice but in cultural terms remains as powerful as ever **Competencies of**
