Literacy David Roberts, Stephen L. Walter, 2021-07-15 This book presents the results of a series of literacy experiments in ten Niger Congo languages representing four language families and spanning five countries It asks the research question To what extent does full tone marking contribute to oral reading fluency comprehension and writing accuracy and does that contribution vary from language to language One of the main findings is that the ethno literacy profile of the language community and the social profile of the individual are stronger predictors of reading and writing performance than are the linguistic and orthographic profiles of the language Our data also suggest that full tone marking may be more beneficial for less educated readers and those with less experience of L1 literacy The book will bring practical help to linguists and literacy specialists in Africa and beyond who are helping to develop orthographies for tone languages It will also be of interest to cognitive psychologists exploring the reading process and researchers investigating writing systems Women in Scholarly Publishing Anna Kristina Hultgren, Pejman Habibie, 2023-09-29 Women in Scholarly Publishing explores the under researched topic of gender and scholarly publishing While often considered separately the relationship between gender and scholarly publishing has been neglected Bringing together experts across applied linguistics this book brings to the fore the challenges and opportunities faced by female academics in both Anglophone and non Anglophone contexts as they participate in the production and dissemination of knowledge Contributors show how female scholars production and dissemination of knowledge intersect with gendered structures and disciplinary cultures in complex ways The key strands of work that this volume seeks to bring together include essentialism in gender studies and alternative perspectives on how gender should be viewed and studied in knowledge production and dissemination the specific ways in which the labour and conditions surrounding scholarly publication are gendered or perceived as gendered the examination of discourses texts and genres from a gender perspective and the continuing gendered and gendering impacts on career trajectories of women academics While women s barriers are documented across geopolitical contexts the book also shows how norms policies and practices can be challenged and alternative futures imagined The book will be of interest to researchers practitioners institutional decision makers writing mentors early career scholars and graduate students in a variety of fields *Read* ,1990 **Sight Words Practice for Kindergarten Kids** Susan Baker, 2018-04-10 Teach your kids to recognise read and write 100 Dolch sight words and sentences The Dolch sight words in this book are Pre primer and Primer words These words are commonly encountered in any text and they set the foundation for future reading and writing skills Once your children can recognise read and write these words they can read and spell more fluently to prepare them for school This book contains 100 sight words sentences for kids to trace and write Each page contains one sentence with a sight word This sentence handwriting workbook helps kids to progress from writing single words to writing sentences The sight word in each sentence is underlined First the kid practise tracing the dotted sentence for 4 times Next the child practise without the dotted words but write with the three traditional horizontal lines as a guide Finally the kid writes out the sentence without any guidance inside
