International Handbook Of English Language Teaching Springer:

International Handbook of English Language Teaching Jim Cummins, Chris Davison, 2007-12-31 This two volume handbook provides a comprehensive examination of policy practice research and theory related to English language teaching (ELT) in international contexts. Nearly 70 chapters highlight the research foundation for the best practices frameworks for policy decisions and areas of consensus and controversy in the teaching and development of English as a second and/or additional language for kindergarten through to adult speakers of languages other than English. In doing so, it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field. A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole. At various times and in different contexts, the following labels have been used in countries where English is the dominant language to describe programs, learners, or teachers of English: English as a second language (ESL), English as an additional language (EAL), limited English proficient (LEP), and English language learners (ELL). In contexts where English is not the dominant language, the following terms have been used: English as a foreign language (EFL), English as an international language (EIL), and English as a lingua franca (ELF).

International handbook of English language teaching. 1 (2007) Jim Cummins, 2007 *Internationalization of TESOL Teacher Education* Vander Tavares, 2025-02-11 This book examines internationalization practices, policies, and experiences within TESOL teacher education. The chapters offer empirical, conceptual, and theoretical engagements with the internationalization of TESOL teacher program curricula from both global and critical perspectives. They analyze the opportunities, challenges, and gaps between internationalization, policy, practice, and international activities through the intersectional voices of researchers, teacher educators, students, and pre- and in-service teachers of English in diverse settings. In doing so, this book identifies the trends, skills, and knowledges needed for or developed through the internationalization of TESOL teacher education while also contributing to the decolonialization of the field.

Second Handbook of English Language Teaching Xuesong Gao, 2019-10-23 The Second Handbook of English Language Teaching provides a comprehensive examination of policy, practice, research, and theory related to English language teaching in international contexts. Over 70 chapters focus on the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second language acquisition and pedagogy. In countries around the globe, English has become the second language taught most frequently and intensively. In many countries, particularly in Asia, government policies have made English a part of the curriculum from primary school on. Demand for English teaching by parents and adult learners is fueled by the desire to increase economic competitiveness, globalization of the workforce, immigration, and a move toward lifelong learning. Immigration has led to an increased demand for English language teaching even in countries where English is the dominant language.

International Handbook of English Language Teaching Jim Cummins, Chris Davison, 2007-06-15 This two

volume Handbook provides a comprehensive examination of policy practice research and theory related to English Language Teaching in international contexts More than 70 chapters highlight the research foundation for best practices frameworks for policy decisions and areas of consensus and controversy in second language acquisition and pedagogy The Handbook provides a unique resource for policy makers educational administrators and researchers concerned with meeting the increasing demand for effective English language teaching The spread of English as a global language is well documented In countries around the world English has replaced other languages as the second language taught most frequently and intensively in school These trends are escalating and have not yet reached their peak Increasing demand for English language teaching is also evident among adult learners Large scale ELT programs for adult learners have been established in the community and workplace as a result of the globalization of the workforce concerns to increase economic competitiveness and a move towards life long learning Increased focus on English language teaching has also occurred in countries where English is the dominant language Many English speaking countries have experienced dramatic increases in immigration during the past 30 years

Contemporary Task-Based Language Teaching in Asia Michael Thomas,Hayo Reinders,2015-02-26 Over the last decade task based approaches to language learning and teaching TBLT have become a global focus of increased levels of research Governments around the world have turned to TBLT as a potential solution for curricula that lack authentic and meaningful engagement with language learning and are failing to motivate students as a result This book focuses on Asia where this shift has been particularly in evidence TBLT has often been implemented in top down approaches to curriculum development which presents a huge range of challenges at the cultural as well as the pedagogic level Contemporary Task Based Language Teaching in Asia looks at the drivers stakeholders and obstacles across the region Some countries have adapted TBLT to deal with the local constraints others have found it hard to apply and many are still in the process of investigating its implementation in their specific contexts This collection is important to all involved in language development from curriculum reform to materials development It assists from programme evaluation to the setting of assessment standards The chapters cover all aspects of language education across Asia from primary to tertiary private and public education as well as innovations at local regional and national levels

Early Language Learning and Teacher Education Subhan Zein,Sue Garton,2019-02-26 Language teacher education is widely identified as one of the most important areas that needs addressing in order to improve early language instruction yet research into teacher education for early language teachers remains relatively sparse This volume responds to this gap by compiling studies with diverse methodological tenets from a wide range of geographical and educational contexts around the world The volume aims to enhance understanding of early language teacher education as well as to address the need to prepare early language teachers and assist them in their professional development The chapters focus on the complexity of teacher learning innovations in mentoring and teacher supervision strategies in programme development and perceptions and knowledge and assessment in early language learning teacher education The volume offers comprehensive coverage of the field by addressing various aspects of teacher education in different languages The contributions highlight examples of research into current practice in the professional enhancement of early language learning teachers but with an emphasis on the implications for practitioners

Successful Teacher: Personality and Other Correlates Elena Mirela Samfira,Tiberiu Sandu Dughi,Jesus de la Fuente,2023-11-08 The question of what makes a good teacher has been asked by practitioners policymakers and researchers Teachers are important drivers of student success in the immediate term such as academic success Nowadays the education process is influenced by various factors which can all have a strong effect on the quality of teaching and learning Having the intention to create high quality teaching and learning it is very important to clearly determine what those factors are and what kind of effect they have on the education process Different teacher

characteristics and competencies have been distinguished in the literature as being relevant predictors of their instructional quality Even though educational psychology has emphasized the significance of the personality role in the education process the empirical evidence on the relationship between teacher characteristics and instructional quality is not yet conclusive Certainly there is much more to find out
