Praise for 101 Trauma Informed Interventions

Linda Curran's unflagging energy and dedication to the healing of traumatized individuals has led to a voluminous, exciting, and comprehensive 101 Trauma Informed Interventions. This workbook provides a plethora of effective tools, traditional as well as innovative, that can be used in whole or as a part of a course of therapy and also as self-help. The variety of options offered goes a long way towards dispelling the unfortunately popular misconception that there are only a limited number of interventions that help people to recover from trauma. Survivors as well as therapists who have been frustrated by the rigidity of strict adherence to evidence-based practice will be greatly relieved to find a wealth of useful strategies to experiment, evaluate, and sort into a personally tailored trauma recovery program. This workbook is a godsend for the trauma field, expanding the possibilities for recovery in a most generous way.

Babette Rothschild, MSW, author of *The Body Remembers* and *8 Keys to Safe Trauma Recovery*. Linda Curran has carefully and knowledgeably curated a practical, effective collection of interventions that actually work for trauma survivors. Any clinician committed to helping those suffering from posttraumatic stress needs to have these tools and resources to draw upon because standard talk therapy nine times out of ten is simply not going to cut it. These exercises will.

Belleruth Naparstek, LISW, author of *Invisible Heroes: Survivors of Trauma and How They Heal*. Drawing from the whole spectrum of trauma-based therapies, Linda Curran has compiled a sampling of practical exercises designed to help therapists and their clients better navigate the minefield that trauma work can be and find the path to healing.

Richard Schwartz, Ph.D., author of *Internal Family Systems Therapy*. 101 Trauma Informed Interventions provides an accessible, functional playbook for therapists committed to the rehabilitation of the client with a trauma history. In a readable volume, Curran integrates diverse approaches of treatment and emphasizes the unique role that trauma plays in mental health. Underlying this eclectic strategy is the common theme emphasizing that healing will only begin when the trauma-related feelings embedded in the body are appreciated.

Stephen W. Porges, Ph.D., author of *The Polyvagal Theory: An interesting compendium of potential interventions that can be interwoven into any therapist's existing conceptual framework*.

Louis Cozolino, Ph.D., Pepperdine University and author of 5 books, including the best seller *The Neuroscience of Psychotherapy: Healing the Social Brain*, 2nd edition.

Therapist's Guide to Posttraumatic Stress Disorder Intervention
