

Biology Exam 1 Study Guide

Lecture 1 – Introduction to Biological Science

Tree of Life

- Domains
 - Eukarya → visible life
 - Split into animals and plants
 - Very small position
 - Bacteria → single cell
 - Make up most of life's branches
 - Symbionts that evolved into mitochondria and chloroplasts were eubacteria
 - Archaea → original domain of life
 - More closely related to eukaryotes than eubacteria, first branch of life
 - Basic split between archaea and bacteria
- Candidate phyla radiation: Single species have been identified, each identifies an entire phylum which is yet to be understood - pioneer species (tree is dominated by new species that scientists have never seen before)
- Species disappearing faster than can be recovered
- Eukaryotes and archaea are most closely related branches

Destruction and Mass Extinction

- One million species face imminent extinction because of humans
- Recent past → >50% vertebrates/>75% flying insects lost in the past <50 years
- Critically threatened → >40% amphibians, >30% plants/corals/sharks, >25% mammals
- Populations and extinctions have increased

Theory of Evolution

- Evolution: all life on earth evolved from a common ancestor, most properties within cells work in the same way, the change in gene distribution over time within a population
- Theory: a very well substantiated idea that explains many overlapping phenomena at once. wide-ranging, strongest. Not a hypothesis
- Darwin: species arise through random mutation and natural selection for fitness
- Evidence (fewer than 40% of Americans believe in evolution)
 - fossil record shows conservation of homologous structures
 - Molecular proof: same DNA and RNA protein in cells
 - Homologous function in hands and fins → evolved similar mechanisms in appendages
- Scopes Monkey Trial
 - Scopes taught evolution illegally: resulted in Butler Act → forbid teaching evolution in TN
- Endosymbiont theory
 - Single composite cell of greater complexity could evolve from two or more separate simpler living cells in a symbiotic relationship

Year of Earth's History

- 1 Jan: earth formed 4.54 bya by acceleration of material from the solar nebula via gravitational collapse, conditions were incompatible with life, bombarded with asteroid-sized meteors for 800 million years
- 4 Mar: by 3.8 bya bombardment had slowed, Earth had cooled to lower the temps "compatible" with life

Biology 1 Study Guide

Christian G. Meyer

Biology 1 Study Guide:

Pamphlet - Dept. of the Army United States. Department of the Army,1951 All Hands ,1968 *Monthly Catalog of United States Government Publications* ,1963 Biology Facts and Principles 1 (Speedy Study Guides) Speedy Publishing LLC,2015-01-23 A biology study guide that outlines the basic facts and principles can help students study in many ways Often times students get overwhelmed in so much detail that they forget the basics Study guides can help students learn basic terminology and concepts that will then help them build a higher knowledge Condensing knowledge into a one page sheet can help reinforce the most important points and can be used for a quick review reference as well *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1978 **Study Guide** George Karleskint,1991 **Catalog** James Millikin University,1922 *Subject Guide to Books in Print* ,1991 **The Ultimate Study Guide for Biology** Patrick Leonardi,2005-01-01 **Resources in Education** ,1984 Biology Study Guide and Outline Part 1: Cells, Energy, Replication, Inheritance and Evolution Harold Ickes II,2012-03-21 This book is written in clear simple language easily describing concepts of first semester biology courses without using the overly complex confusing language that many text books do It is illustrated with lots of easy to understand pictures to help you see and remember the concepts and term In addition to technical diagrams and tables the pictures include many funny cartoons throughout the book to make learning the material more fun and memorable If you are frustrated by technical jargon and just want the important concepts explained in a straightforward way so you can do well in your biology course this is definitely the text for you **The Publishers' Trade List Annual** ,1878 *American Education* ,1902 *Annual Catalogue of the Lawrence University of Wisconsin* Lawrence University,1909 **Readers' Guide to Periodical Literature** ,1916 Author and subject index to a selected list of periodicals not included in the Readers guide and to composite books Conversational Science MCAT(R) Volume 1 Jim Brinegar,2015-07-05 The Conversational Science series is a new or at least different approach to preparing for the latest version of the Medical College Admissions Test This bit is only my personal opinion but I think the easiest way to do well on the MCAT is to understand the material There s one heck of a lot of material though so how should you study the things you ve already covered in class This study guide is written in an informal tone of voice because you and I are having a conversation and not a lecture This study guide contains a limited number of crudely drawn figures You re the person studying for the exam so I ask you to draw the rest of the figures for yourself A figure that you draw yourself even if you have no artistic talent whatsoever teaches you much more than you can learn by simply looking at the beautiful full color professionally drawn figures in your textbooks This study guide has a limited number of review questions so you can check if you really did understand one chapter before you move on to the next This study guide DOES NOT contain any practice exams This is because in my opinion again based on my experience as a student and as an instructor the questions in the practice exams of many study guides are too often confusing poorly written and not at all like the actual questions on the

actual exam And sometimes the answers given for some questions on some practice exams are just plain wrong This study guide may not be for everyone but I think there s a good chance it ll help you convince yourself that you really do understand the material Medical College Admissions Test MCAT and MCAT2015 are registered trademarks of the Association of American Medical Colleges which neither sponsors nor endorses this product I took the MCAT way back in the middle of the 1980s and I did very well if I do say so myself **The Annual American Catalog, 1908** ,1909 Documents
Accompanying the Journal of the House of Representatives Michigan,1893 *The United States Catalog* ,1921 **Books of**
1912- Chicago Public Library,1912

Uncover the mysteries within Crafted by is enigmatic creation, Discover the Intrigue in **Biology 1 Study Guide** . This downloadable ebook, shrouded in suspense, is available in a PDF format (Download in PDF: *). Dive into a world of uncertainty and anticipation. Download now to unravel the secrets hidden within the pages.
