The truth is, as successful as we are as working moms, we all sometimes feel like a hot mess. At times we screw up, but we do the best we can. And that is wonderful. You are wonderful. But you don't just need cheerleaders or concepts for empowerment. You need real tools to help you ease the struggle and make changes in your business and in life. That is what author Clara Capano, a sought-after speaker, coach, podcast host, and blogger, provides. In this book, Clara will help you develop healthy boundaries as a working mom, communicate effectively in both business interactions and relationships on the home front, create a foundation for self-care, realize the power of your vision and how to communicate it, and establish a mindset to keep you focused, purposeful, and passionate. The positive changes that working moms make will impact generations. As we improve ourselves and our lives, we also improve the lives of our families, friends, and clients. Research Methodology in Bioscience and Biotechnology Kian Mau Goh, 2023-07-28 This monograph offers a comprehensive guide to good research practices and mindsets, covering a wide range of topics across 8 chapters. Readers will find numerous themes and strategies that can help them develop their research skills and achieve their objectives, from effective proposal writing to stress management and upskilling. This book explains the purpose, process, tips, and mistakes of writing proposals, theses, articles, and reviews in clear and straightforward language, allowing readers to develop good research plans. By applying the advice and insights offered in this book, students and researchers can improve the quality of their work, cultivate research integrity, and develop good publication plans, write well, and reduce rejection rates. Research outputs will be more likely to be of high quality if students and researchers are encouraged to cultivate these pieces of advice. The focus of the book is not solely on the outcomes of research. Rather, it also delves into mindset, habits, adaptability, time management, stress management, recent tools for upskilling, planning, and execution. Throughout the book, the author seeks to instill a growth mindset in the readers, encouraging them to develop positive research habits and behaviors. KPIs, particularly publications, shall not be used as a reason to erode research integrity and ethnicity. Therefore, plagiarism, self-citation, falsifying data, exaggerating findings, authorship in publications, the use of AI tools, CRediT, and COPE are discussed. This book contains interviews with high-profile researchers, top management at institutions, policy advisers, etc., whose opinions and advice the readers will find valuable.
