The Oxford Handbook of Group Counseling Robert K. Conyne, 2011-08-22 Group counseling is a dynamic and valuable treatment device used by therapists throughout the psychological disciplines one that has proven effective in promoting change and growth in a variety of populations and settings The Oxford Handbook of Group Counseling takes an innovative approach to this expansive topic providing both a comprehensive field manual for practitioners and an authoritative reference work for teachers and researchers Comprising 31 topic based chapters by leading practitioners and researchers this handbook covers the full spectrum of current and relevant topics in group counseling including definitions and background history and efficacy key change processes e.g. therapeutic factors group cohesion group climate group leader strategies and characteristics new applications for group counseling strategies including online groups group counseling with special populations the future of group counseling With roots in the most recent and relevant literature The Oxford Handbook of Group Counseling is an ideal text for training programs counselor education clinical psychology social work or human services or as a reference for researchers in counseling psychology Whoever the reader it a valuable and comprehensive guidebook for both students and practitioners in the growing practice of group counseling

Group Work Bradley T. Erford, 2018-04-17 The overriding theme of Group Work Processes and Applications is a focus on the specialized group work that counselors perform from a systemic perspective in a multicultural context This text briefly covers traditional theoretical approaches focusing more on the techniques and applications of the approaches but the core of the text involves the systemic approach to group work preparing group leaders to facilitate the systemic group process from planning the group through the four stages of group work forming and orienting transition working and termination The content is aligned

with 2016 CACREP standards Numerous other techniques covered are linked with specific theoretical orientations PowerPoints and Instructor s manual are on the way and should be available in the next 2 3 months

Introduction to Therapeutic Counseling Jeffrey A. Kottler,2004 This text provides students with an overview of the counseling profession including information on what counseling is the history of counseling theoretical orientations counseling applications and professional issues The text s unique student oriented focus engages students in exploring their motives for wanting to be a counselor To helps students learn about the realities of the field Kottler includes Voices from the Field sections which contain interviews with practicing counselors discussing the challenges they ve faced and the ways they resolved those challenges Experiential and reflective exercises integrated into every chapter help the student reflect on the material

The Counselor and the Group James P. Trotzer,2006 First Published in 2007 Routledge is an imprint of Taylor Francis an informa company

Foundations of Social Work Practice in the Field of Aging Roberta Rubin Greene,2007 The aging of societies is a global phenomenon In the United States alone the life expectancy for both men and women will continue to increase over the next few decades and with that a population explosion of older adults The dramatic increase in the number and diversity of older adults elevates the visibility of gerontological matters As a result social work practice is becoming more multigenerational thereby demanding social workers regardless of their professional endeavors to be equipped with the most innovative theories and practices to serve older adults and their families This comprehensive text spans the new knowledge and skills required in direct practice areas group work and macro practice It also outlines the Geriatric Social Work Competencies as developed by social work educators necessary to serve the older adult population and suggests how these competencies can be integrated into foundation curriculum Social work educators students practitioners administrators and policymakers will find updated useful information in this text regarding assessment tools cultural influences evidence based practices intervention techniques theoretical examples

Individuals are living longer and healthier lives in part because of the extraordinary growth of biomedical knowledge and public health initiatives The confluence of the rapid and large increase of the older population and the exponential increase in the dissemination of knowledge create an imperative for social workers to employ the most recent knowledge in their practice with people living increasingly long lives JoAnn Damron Rodriguez Department of Social Welfare University of California Los Angeles

Group Counseling and Group Psychotherapy George Michael Gazda,Earl J. Ginter,Arthur M. Horne,2001 This new book presents current thinking on the subject of group counseling and group psychotherapy This well known and respected author team have included both group counseling and group therapy theory and application in the same text to accommodate future practitioners who will work in educational and mental health institutions as well as those who will enter private practice depending upon their training and future work setting Unlike current competing texts that focus on group work in either counseling or psychotherapy or that provide numerous chapter length summaries of prevailing group models this text isolates the three basic theoretical models extant

and presents a comprehensive description of the theory followed by a separate chapter on application The three basic theoretical models of Humanistic Existential Cognitive Behavioral and Psychodynamic are supplemented by an eclectic Developmental model of the senior author Two additional chapters are devoted to the most rapidly growing group interventions skills training and self help mutual support groups The second dominant feature of the text deals with foundations of group counseling and group therapy including origins and historical development definitions group dynamics diversity issues research support and ethical professional and legal issues Also included are appendices with training standards ethical standards and diversity guidelines

Introduction to the Counseling Profession Douglas R. Gross,2001 This text is designed for students taking an introductory course in the counseling field who are trying to determine if they are well matched to the counseling profession Introduction to the Counseling Profession is unique both in its format and in its content This co edited co authored book is comprised of state of the art information by recognized experts in their respective areas of counseling The content is organized into counseling foundations counseling skills counseling in specific settings and counseling specific populations which provides a comprehensive overview and introduction to the profession of counseling CACREP accredited and CACREP equivalent graduate programs can use this text in connection with meeting CACREP s professional orientation standard

Group Psychotherapy, Psychodrama & Sociometry,1976

The Professional Counselor Harold Hackney,Louise Sherilyn Cormier,2001
