Robert R. Moeller, 2004-05-10 Sarbanes Oxley and the New Internal Auditing Rules thoroughly and clearly explains the Sarbanes Oxley Act how it impacts auditors and how internal auditing can help with its requirements such as launching an ethics and whistle blower program or performing effective internal controls reviews under the COSO framework With ample coverage of emerging rules that have yet to be issued and other matters subject to change this book outlines fundamental blueprints of the new rules technological developments and evolving trends that impact internal audit professionals Order your copy today **The Effect of Audit Review Format on the Quality of Workpaper Documentation and Reviewer**

Judgments Christopher P. Agoglia, Richard C. Hatfield, Joseph F. Brazel, 2009 The promulgation of PCAOB Audit Standard No 3 2004 highlights the recent focus on workpaper documentation quality and its influence on audit quality Our study examines how the mode of audit workpaper review affects reviewer judgments through its influence on workpaper documentation Due to technological advancements such as email and electronic workpapers firms can now perform workpaper review electronically as well as through a more traditional face to face approach Recent research has found that review mode can affect the judgments of auditors preparing the workpapers Brazel et al 2004 Our study extends the literature by examining the extent to which review mode electronic vs face to face affects the quality of documentation in the workpapers and whether reviewers are able to discern and compensate for these documentation quality issues We propose a model which predicts that the relationship between the method of review and reviewer judgment quality is mediated by the documentation quality assessment gap i.e. actual versus reviewer assessments of documentation quality Such a mediation model provides insight into why the review format affects reviewer judgment quality Consistent with expectations we find that preparers of

workpapers who were anticipating an electronic review provided lower quality documentation than preparers expecting a face to face review As predicted by our mediation model we find that the effect of review mode on reviewer judgments is mediated by the documentation quality assessment gap Specifically when the mode of review was electronic reviewers were unable to recognize the lower quality documentation resulting in lower quality judgments compared to when the mode of review was face to face These results suggest that the effect of review mode persists to the reviewer s judgment through its influence on documentation quality
