## Discovering Geometry An Investigative Approach

### About the Student Edition . . .

- *Discovering Geometry* helps students explore geometry concepts through guided investigations, and guides them to write and test conjectures using inductive reasoning.
- Students learn how to explain and validate their conjectures through deductive reasoning, building from informal arguments to flowchart and paragraph proofs, and ultimately to formal two-column proofs.
- *Discovering Geometry* is designed for all students. The highly readable text, investigations, examples, and colorful graphics partner with carefully constructed exercise sets and enrichment features to meet all students' needs.
- *Discovering Geometry* has been carefully developed and refined over many years using extensive teacher and student feedback and current educational thinking and research. The thoughtfully sequenced content taps pre-existing knowledge and develops new skills.

### About the Teacher Resources . . .

- The *Discovering Geometry Teacher's Edition* helps you set up and guide an investigative classroom.

The introduction explains both the content and pedagogy and helps you plan the course.

- The opening pages of each chapter of the *Teacher's Edition* help you plan the work of the chapter. They bolster your own mathematical understanding and situate the content in relation to other math topics that students have learned or will learn over the year.
- All student pages of *Discovering Geometry* are reproduced in the *Teacher's Edition*. The wrap-around text tells you how to guide each investigation, how to build students' understanding with good questioning, and how to help students with homework. You'll see alerts to possible sources of confusion, and get suggestions for helping students with language difficulties.
- More than a dozen additional teacher resources in print and online provide more skills practice, complete solutions, activities for The Geometer's Sketchpad®, many assessment tools including a test generator, and other assistance and enrichment. Register at [www.keypress.com](http://www.keypress.com) to get full access to the online teacher resources.
