Cope, 2016-04-15 The definition of heavy metal is often a contentious issue and in this lively and accessible text Andrew Cope presents a refreshing re evaluation of the rules that define heavy metal as a musical genre Cope begins with an interrogation of why during the late 1960s and early 1970s Birmingham provided the ideal location for the evolution and early development of heavy metal and hard rock The author considers how the influence of the London and Liverpool music scenes

merged with the unique cultural climate industry and often desolated sites of post war Birmingham to contribute significantly to the development of two unique forms of music heavy metal and hard rock The author explores these two forms through an extensive examination of key tracks from the first six albums of both Black Sabbath and Led Zeppelin in which musical visual and lyrical aspects of each band are carefully compared and contrasted in order to highlight the distinctive innovations of those early recordings In conclusion a number of case studies are presented that illustrate how the unique synthesis of elements established by Black Sabbath have been perpetuated and developed through the work of such bands as Iron Maiden Metallica Pantera Machine Head Nightwish Arch Enemy and Cradle of Filth As a consequence the importance of heavy metal as a genre of music was firmly established and its longevity assured

Sound, Image, and National Imaginary in the Construction of Latin/o American Identities Héctor Fernández L'Hoeste,Pablo Vila,2017-12-26 Sound Image and National Imaginary in the Construction of Latin o American Identities addresses a gap in the many narratives discussing the cultural histories of Latin American nations particularly in terms of the birth configuration and perpetuation of national identities It argues that these processes were not as gradual or constrained as traditionally conceived The actual circumstances dictating the adoption of particular technologies for the representation of national ideas shifted and varied according to many factors including local circumstances political singularities economic disparities and highly individualized cultural transitions This book proposes a model of chronology that is valid not only for nations that underwent strong processes of nationalism during the early or mid twentieth century but also for those that experienced highly idiosyncratic cultural economic and political development into the early twenty first century
