you will have improved your React skills by realizing the potential of Firebase to create real time serverless web applications
What you will learn
Install powerful React js and Firebase tools to make development much more efficient
Create React components with Firebase to save and retrieve the data in real time
Use Firebase Authentication to make your React user interface secure
Develop React and Firebase applications with Redux integration
Firebase database security rules
Firebase Cloud Storage Integration to upload and store data on the cloud
Create a complete real time application with React and firebase
Using Firebase Cloud messaging and Cloud functions with React
Firebase Cloud Storage integration with React
Who this book is for
This book is for JavaScript developers who have some previous knowledge of React and want to develop serverless full stack applications but without the hassle of setting up a complex infrastructure
