Introduction to Research Methods and Data Analysis in Psychology Darren Langdridge, Gareth Hagger-Johnson, 2009

Introduction to Research Methods and Data Analysis in Psychology 2e presents quantitative and qualitative research methods and the most widely used techniques for collecting and analysing data. It provides clear and accessible coverage to equip the reader with an understanding of the research process and the practical skills they need to collect and analyse data. This second edition has been thoroughly revised and updated to include a number of new chapters and additional topics such as research mixed methods and R a statistical software package. Detailed information is provided on experimental design and statistical analysis by hand and using SPSS v 16.0. Expanded coverage of a range of areas including literature reviewing the statistical techniques of ANOVA and MANOVA and psychometrics is also provided. The text assumes that the reader has no previous knowledge of research methods or psychology and is therefore essential reading for undergraduate psychology students plus highly recommended for students on other social and health science courses.

Real World Research Colin Robson, Kieran McCartan, 2016-01-27 Real World Research provides a clear route map of the various steps needed to carry out a piece of applied research to a high professional standard. It is accessible to those without a social science background while providing rigorous and fully up to date coverage of contemporary issues and debates. It brings together materials and approaches from different social science disciplines seeing value in both quantitative and qualitative approaches as well as their combination in mixed method designs.
