categories *Margaret Cavendish* Lisa Walters, Brandie R. Siegfried, 2022-05-12 Margaret Cavendish's prolific and wide ranging contributions to seventeenth century intellectual culture are impossible to contain within the discrete confines of modern academic disciplines Paying attention to the innovative uses of genre through which she enhanced and complicated her writings both within literature and beyond this collection addresses her oeuvre and offers the most comprehensive and multidisciplinary resource on Cavendish's works to date The astonishing breadth of her varied intellectual achievements is reflected through elegantly arranged sections on History of Science Philosophy Literature Politics and Reception and New Directions together with an Afterword by award winning novelist Siri Hustvedt The first book to cover nearly all of Cavendish's major works in a single volume this collection brings together a variety of expert perspectives to illuminate the remarkable ideas and achievements of one of the most fascinating and prolific figures of the early modern period *The Book on Public Speaking* Topher Morrison, 2017-03-21 One of the most powerful professional speakers in America reveals how he's earned millions onstage on camera and in business Steve Siebold CSP past chairman of The National Speakers Association's Million Dollar Speakers Group If you look at the trends of over thirty years ago in fashion technology architecture and any other industry what was cutting edge back then has become cliché and grossly out of date now But in the speaking industry most people get up and still walk talk and sound like the 1980s motivational speakers of yesteryear *The Book on Public Speaking* takes a head on approach and challenges the status quo for business leaders that speak in front of their staff board of directors and the public After reading this book you will be privy to the most current methods for speaking to an audience for maximum impact in today's more sophisticated and skeptical culture If you are the type of business leader who has achieved a level of success in life and feel compelled to share your story with the world don't lessen that impact by imitating outdated speaking techniques Instead break the mold of the speaker cliché and tap into a speaking style that is authentic packs a punch and leaves the audience wanting more I learned some amazing presentation techniques from Topher I'm using them right now They're awesome You can't tell because you're reading this John Heffron winner of *The Last Comic Standing* Morrison is crazy good at training you how to communicate on camera so that your business gets more attention James Lavers professional speaker founder *Selling from the Screen* **House of Commons - Committee of Public Accounts: Cabinet Office: Improving Government Procurement And The Impact Government's ICT Savings Initiatives - HC 137** Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2013-09-20 Central government spent a total of around 45 billion on buying goods and services in 2011-12 including an estimated 6.9 billion on ICT Since 2010 the government has introduced a range of procurement reforms designed to save money These include centralising the procurement of goods and services bought by all departments such as energy and travel All ICT spending over 5 million must be approved by the Cabinet Office and a programme to develop ICT infrastructure which can be shared across government organisations has been developed These reforms are beginning to have an impact the proportion of spending that goes

through central contracts has increased steadily the ICT initiatives have resulted in some savings and there are signs that departments are starting to think more intelligently about why and how they use ICT But the accountability arrangements for centralised procurement remain a barrier the centre manages the contracts yet departments remain liable for their own spending decisions so they are reluctant to cede authority to the centre Management information on spending and savings is incomplete so departments do not always trust the figures on savings claimed These gaps in accountability and data make it harder to make the case for procurement across central government and in the wider public sector to be centralised The commitment to localism seems to be at odds with buying through central contracts and government s desire to give more government business to small firms does not appear to have changed the way large procurements are managed
