Chinese Foreign Policy Marc Lanteigne, 2019-06-28 This updated and expanded fourth edition of Chinese Foreign Policy seeks to examine the decision makers processes and rationales behind China's expanding international relations as well as offering an in depth look at China's modern global relations Among the key issues explored in this edition are The further expansion of Chinese foreign policy from regional Asia Pacific to international interests How the government of Xi Jinping has pursued a more confident great power foreign policy agenda China's growing economic power in an era of global financial uncertainty and the return of protectionism Modern security challenges including counter terrorism cyber security maritime power military reform and modernisation and the protection of overseas economic interests China's shifting power relationship with the United States under President Donald Trump The deeper engagement of Beijing with a growing number of international and regional institutions and legal affairs Cross regional diplomacy including updated sections on Africa Latin America the Middle East and Russia Eurasia as well as Oceania and the Polar regions The development of the Belt and Road Initiative BRI as a centrepiece of China's foreign policy This book will be essential reading for students of Chinese foreign policy and Asian international relations IR and is highly recommended for students of diplomacy international security and IR in general

China's Peaceful Rise Le Hu, 2025-02-19 This book examines the extent to which China has stabilized its communist regime and defended or pursued its crucial nationalist interests while maintaining a relatively peaceful environment in East Asia Despite a politics which would seem to be unassimilable and assertive policies regarding sovereignty disputes or the Taiwan question China exists more or less peacefully within East Asia This raises an important question how has this being done Using Social Identity Theory and Chinese Communist Party's united front strategy the author uncovers new angles on the mentality and trajectory of Chinese foreign policy in a study that will interest scholars policymakers and journalists

Post-Truth Public Relations Gareth Thompson, 2020-01-17 This book explores the purpose practice and effects of public relations PR at a time that has been variously described as an era of populism post truth and fake news It considers how PR processes have contributed to the current social condition of post truth and what constitutes PR work in this environment Post Truth Public Relations Communication in an Era of Digital Disinformation proposes that while we can now look back upon the last 80 100 years as a period of classical PR that style is being supplemented by the emergence of a post classical form of PR that has emerged in response to the post truth era This new style of PR consists of a mixed repertoire of communicative work that matches the new geometry of digital media and delivers a mix of online engagement and persuasion in order to meet the needs of increasingly partisan audiences Using contemporary case studies and original interviews with PR practitioners in several countries including China and the Philippines the book investigates how PR workers have reconciled their role as communicative intermediaries with the post truth era of digital disinformation This thought provoking book will be of great interest to researchers and advanced students

interested in the changing nature of PR and its practice

Introduction to Digital Transformation Abbas

Strømmen-Bakhtiar, This book aims to inform the non IT specialist about the technological revolution that is taking place and specifically how the digital component of it is affecting our lives It is hoped that this information will fill possible information gaps in readers mental model enabling them to make better informed decisions This book can also be used as a textbook in a stand alone introductory course to the digital revolution and its effects on society The course could be used in both bachelor and master degree programs in business management healthcare management sociology or any other non IT programs

Chapter 1 This chapter although the longest is a brief review of the interactions between technology economy and politics The subject is a much neglected one and I believe that understanding of these interactions is vital for understanding the underlying causes of some of our most important pressing issues The chapter discusses the interactions between technologies economy and politics examining the effect of technologies on economic development and political ideologies

Chapter 2 This chapter deals with technological revolutions in general and the digital revolution in particular I shall discuss the components of the digital economy These being knowledge digitisation virtualisation molecularization integration internetworking disintermediation convergence innovation sharing economy immediacy and discordant In addition we shall examine the disruptors that are changing the face of competition in the marketplace

Chapter 3 This chapter deals with digital transformation i e the process of using digital technology in all areas of business changing the way the businesses operate and deliver value to their customers We shall examine models for dealing with digital transformation

Chapter 4 We shall examine one of the most important developments of the 21st century namely the advancements in Artificial Intelligence AI We shall look at how the human brain works and what is intelligence We shall look at the artificial neural networks machine learning and deep learning We shall also look at the deployment of AI in various fields such as healthcare finance Natural Language Processing NLP news media and warfare

Chapter 5 This chapter deals with one of the most controversial and yet promising developments in finance and distributed secure databases namely cryptocurrencies and blockchains This subject is divided into two parts the first part deals with the cryptocurrencies and their viability as currencies One of the most popular cryptocurrencies the Bitcoin will be examined in depth The second part is somewhat technical and deals with the inner workings of the blockchains As with cryptocurrencies many see a bright future for the blockchains especially in the form of smart contracts Many believe that blockchains will be of great value in areas such as finance handling contracts healthcare and more Blockchain promises to bring disintermediation to many industries and thereby reduce costs

Chapter 6 Technological revolutions tend to disrupt the lives of many middle aged and older workers New technologies give birth to new industries destroying the old industries in the process New technologies often require special skills that the old industry workers do not possess The laid off workers of the old industries can seldom find jobs in new industries since the new industries often rely on new technologies and skills that the old industry workers do not possess These workers need training

something that the prospective employers do not provide Also the new technologies including AI are automating many tasks reducing the need for human workers This chapter discusses the issue of automation and its effect on employment Additionally the type of jobs that are in danger of automation is discussed as well Chapter 7 While chapter six discussed the employment situation chapter seven considers the type of education required by the new industries Also the weaknesses of the existing educational system are considered and alternative systems are proposed Chapter 8 History tells us that whenever there has been a technological revolution it has been accompanied by a shift in power both nationally and internationally The global shift of power has seldom been a peaceful affair It often has resulted in major wars and global reorientation This chapter discusses the possibility of the global shift of power Currently there are not that many countries or entities that can be considered as contenders Of the three Russia European Union and China only one China is considered to have any chance of wresting power from the United States The technological economic and military power of China is compared and contrasted with the United States *Pacific-Asian Issues* Robert A.
