Indigenous Environmental Knowledge and its Transformations Alan Bicker, Roy Ellen, Peter Parkes, 2003-12-16 The first concerted critical examination of the uses and abuses of indigenous knowledge The contributors focus on a series of interrelated issues in their interrogation of indigenous knowledge and its specific applications within the localised contexts of particular Asian societies and regional cultures In particular they explore the problems of translation and mistranslation in the local global transference of traditional practices and representations of resources

Indigenous Water and Drought Management in a Changing World Miguel Sioui, 2022-05-19 *Indigenous Water and Drought Management in a Changing World* presents a series of global case studies that examine how different Indigenous groups are dealing with various water management challenges and finding creative and culturally specific ways of developing solutions to these challenges With contributions from Indigenous and non-Indigenous academics scientists and water management experts this volume provides an overview of key water management challenges specific to Indigenous peoples proposes possible policy solutions both at the international and national levels and outlines culturally relevant tools for assessing vulnerability and building capacity In recent decades global climate change particularly drought has brought about additional water management challenges especially in drought prone regions where increasing average temperatures and diminishing precipitation are leading to water crises Because their livelihoods are often dependent on the land and water Indigenous groups native to those regions have direct insights into the localized impacts of

global environmental change and are increasingly developing their own adaptation and mitigation strategies and solutions based on local Indigenous knowledge IK Many Indigenous groups around the globe are also faced with mounting pressure from extractive industries like mining and forestry which further threaten their water resources The various cases presented in Indigenous Water and Drought Management in a Changing World provide much needed insights into the particular issues faced by Indigenous peoples in preserving their water resources as well as actionable information that can inform future scientific research and policymaking aimed at developing more integrated region specific and culturally relevant solutions to these critical challenges Includes diverse case studies from around the world Provides cutting edge perspectives about Indigenous peoples water management issues and IK based solutions Presents maps for most case studies along with a summary box to conclude each chapter

Cultural Hybridity and the Environment Kirsten Maclean, 2015-02-07 This book highlights the importance of diversity in overcoming issues of social and environmental degradation It presents conceptual and practical strategies to celebrate local and Indigenous knowledge for improved community development and environmental management David Harvey has proclaimed The geography we make must be a peoples geography This clarion call challenges geographers around the world to consider the power and potential of geographic knowledge as the basis for social action a call this book answers providing readers the theoretical and conceptual tools needed to understand the social world and empowering them to mobilize social change The author uses empirical case studies of two environmental management and community development projects to document how knowledge generation is essentially locally situated and socially derived In doing so she charts a path for moving beyond what Vandana Shiva so aptly describes as monocultures of the mind The book argues that local and Indigenous knowledge must not be seen in opposition to scientific knowledge as none of these knowledge traditions hold all the answers to localized socio environmental problems Rather as the author explores through a set of processes and strategies to enable support and celebrate cultural hybridity at the local environmental governance scale these respective knowledge systems can learn to speak to each other Such dialogue has the potential to support more sustainable outcomes at multiple environmental governance locales This book will be of interest to everyone involved in environmental policy planning or politics and for those who want to make this planet a more sustainable and just place

Report Kenya National Environment Action Plan, 1994 *Environmental Technology and Biosphere Management* H. D. Kumar, 2002 This text aims to cover all aspects of global regional and local environment and point the way for effective management of environmental issues in the light of available technologies both old and new Contrary to conventional economic wisdom the author argues that most of the value in the planetary economy does not come from extracting things out of nature rather it comes from the normal functioning of healthy rivers forests and fields The book shows how this may be achieved by the application and use of appropriate technologies It stresses the need for combining the ecological prudence of traditional technologies with contemporary bio information space and renewable energy

technologies so as to effectively and sustainably manage ecosystems pests forests farms wildlife villages cities water bodies and other components of the planetary environment *Indigenous Knowledge* Paul Sillitoe, 2017-11-07 Indigenous Knowledge IK reviews cutting edge research and links theory with practice to further our understanding of this important approach s contribution to natural resource management It addresses IK s potential in solving issues such as coping with change ensuring global food supply for a growing population reversing environmental degradation and promoting sustainable practices It is increasingly recognised that IK which has featured centrally in resource management for millennia should play a significant part in today s programmes that seek to increase land productivity and food security while ensuring environmental conservation An invaluable resource for researchers and postgraduate students in environmental science and natural resources management this book is also an informative read for development practitioners and undergraduates in agriculture forestry geography anthropology and environmental studies
