Yehezkel, 2014-05-22 This book describes a novel conception of reality one that uniquely incorporates an idealistic view of existence with an account of objectivity It introduces a general model of conceptual analysis and demonstrates its effectiveness in exposing and establishing the existence of conceptual ties The book begins by introducing the tools and principles needed for the conceptual analysis undertaken in chapters that follow Next it presents a detailed examination into existence contingency idealism self consciousness and natural laws In the process the author critically examines the
