Metacognitive Approaches to Developing Oracy Roy Evans, Deborah Jones, 2013-09-13 The acquisition of speech and language represent significant achievements for all children These aspects of child development have received substantial attention in the research literature and a considerable body of theoretical knowledge exists to chart progress from infancy to maturity Cross cultural studies have identified the common purposes served by the acquisition of oral language by children and the essential similarity in the sequence through which speech develops irrespective of geography and culture What is less clear is precisely how children learn to say what they
