Contribution Of Muslim Scientists To The World:

Muslim Contributions to World Civilization M. Basheer Ahmed, MD and Ambassador Syed A. Ahsani and Dilnawaz A. Siddiqui, PhD, 2005-01-01 Islam's brilliant contributions to science, art and culture are a timeless and precious heritage which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely, if at all, acknowledged in formal education and today their identity, origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models and institutions etc. The preservation of civilization necessitates a better understanding, sharing and recognition of our common human heritage. Given today's widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims, the publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being perpetrated and restore the historical truth which is being distorted.

Science and Technology from Global and Historical Perspectives Bahattin Karagözoğlu, 2017-03-05 This book provides science and technology ethos to a literate person. The technical, social and cultural dimensions are surveyed in relation to acquisition and application of science and advantages and hindrances of technological developments. Science and Technology is currently taught as a college course in many universities with the intention to introduce topics from a global historical perspective so that the reader shall stretch his/her vision by mapping the past to the future. The book can also serve as a primary reference for such courses.
