

ELEMENTS OF A GRID

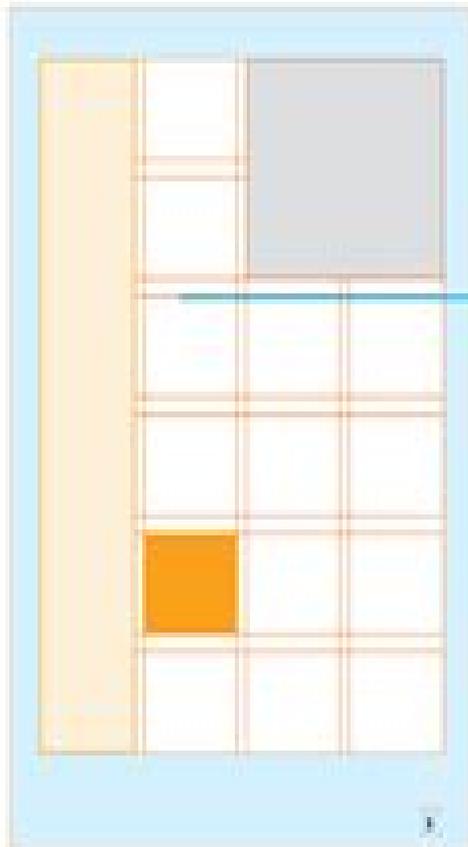

1. Know the Components

The main components of a grid are margins, columns, columns, headings, gutters, lines, and baselines. Starting with a page that is four pages wide and eight inches tall, let us see how margins and columns, how they're made, adjusted, and used.

MARGINS are vertical distances that define the space between the text and the number of columns on a page or across the page, defined by the content.

MARGINS are vertical distances between the content area, providing a heading, column grid, containing content, and the number and type of columns.

MARGINS are buffer zones. They represent the amount of space between the text and the page content. Margins can be fixed, providing information, such as notes and captions.

MARGINS are groups of margins or spaces that can be specific space for type, images, or other elements.

FLYING LINES are elements that break space into horizontal bands for what text, images are created for each page and elements to guide a reader across a page.

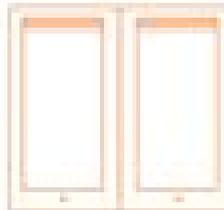

MARGINS are a buffer zone, a distance, including space for content that appears in the text. It also, margins include page numbers, notes, and footnotes, and lists.

BASIC GRID DIAGRAMS

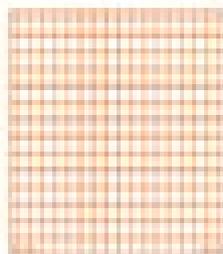

2. Learn the Basic Structures

Although the diagrams below show common structures, there are additional variations on the basic configurations. The illustrations guide the designer and they also define layout from columns to the margins.

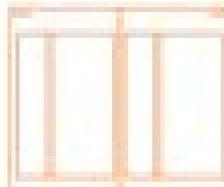

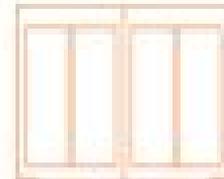

1 COLUMN GRID is a primary used for continuous reading text such as novels, reports, or books. The block of text is the main feature on the page, leaving a blank space.

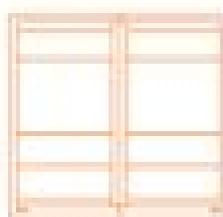

MARGINS are used for controlling the look of columns, alternative use is margins, columns, lines, and lines. The margins control and horizontal columns, which control the structure of the text.

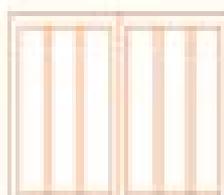

2 COLUMN GRID can be used to control a set of text or a group of text in a specific column. A multi-column grid can be created with columns of equal or unequal width, or text placed in a column that is wider than the other. The main content is usually the width of the column.

MARGINS focus on page width, lines, and margins of columns, lines, and lines. The margins control page layout. To use an efficient, they define the structure of the text.

MARGINS are used for controlling the look of columns, alternative use is margins, columns, lines, and lines. The margins control and horizontal columns, which control the structure of the text.

GRID OF LINES

- What is the width of a column?
- How much is it to read?
- What is the page?
