Promoting Behaviour for Learning in the Classroom Simon Ellis, Janet Tod, 2014-10-17 Promoting Behaviour for Learning in the Classroom offers essential support to help you develop capacity and confidence in managing behaviour in the group setting of the classroom It provides a concise analysis of established behaviour management strategies recognising that no single approach will work for all pupils and that central to effective practice is an understanding of the different personal attributes and experiences teachers and pupils bring to the classroom Illustrated by examples from the classroom Promoting Behaviour for Learning in the Classroom uses the tried and tested Behaviour for Learning framework to show how teachers expertise in promoting learning can be used to improve behaviour Key issues considered include Developing positive relationships in the classroom Understanding personal style and self management Effective use of feedback and rewards Using positive correction and sanctions Working with school systems and frameworks for managing behaviour Individual differences and special educational needs Dealing with challenging behaviour Written by experts in the field Promoting Behaviour for Learning in the Classroom offers much needed in depth realistic support and guidance to show teachers how to improve learning and behaviour in the group setting of the classrooms

Listening to Children and Young People in Healthcare Consultations Sarah Redsell, Adrian Hastings, 2018-04-17 The involvement of children and young people in consultations about aspects of their health or illness is often limited with their role in diagnosis and decision making on treatment options secondary to that of parents or carers However research shows that most children and young people want greater involvement that this can both improve their understanding of their illness and positively influence healthcare outcomes Policy recommendations increasingly require health professionals to involve children and young people in healthcare but there is little available guidance on building the knowledge and skills needed to do so effectively This book meets that need including an overview of the particular issues involved and providing structured guidance for different types of consultations including children with learning difficulties disabled children and children as carers Edited by eminent researchers and with highly experienced contributors this book is an invaluable resource for GPs and GP registrars paediatric and emergency consultants and specialist registrars nurses paramedics healthcare educators and trainees and all those who work with children and young people in health related contexts
