Plotinus The Six Enneads Documenta Catholica Omnia:

Ambrose of Milan, Christian Sage Robert L. Grant,2024-11-23 Ambrose of Milan long cast into the shadows of the Western intellectual tradition deserves more attention Ambrose holds that the purpose of life is to reach eternity That is attained by happily attending to life s meaning the duty to serve the common good Being the first Senator Bishop Ambrose naturally melds philosophy with the Scriptures in a creative vision of eternal life already experienced in this life This intriguing and intricate theology holds together in a creative tension seemingly contrary concepts such as duty and freedom merit and grace At the heart of his enterprise is misericordia which means a moral reset by being forgiven that we learn to forgive others and that we offer benevolent justice especially to the marginalized future generations and the earth itself Resourcing Ambrosian theology offers the Church and civil society a fresh and positive response to those forces which drive us apart The Routledge History of Happiness Katie Barclay,Darrin McMahan,Peter N. Stearns,2024-05-09 Unmatched in originality breadth and scope The Routledge History of Happiness features chapters that explore the history anthropology and psychology of happiness across the globe Through a chronological approach that ranges from the Classical and Postclassical to the twenty first century this volume balances intellectual history treatments and wider efforts to deal with relevant popular culture and experience including consumerism It explores how and why the history of happiness has emerged in recent decades as well as psychological and social science approaches to happiness with a history of how relevant psychological research has unfolded Chapters examine early cultural traditions concerning happiness including material on Buddhist and Chinese traditions and how they continue to influence ideas about happiness in the present day Overall each section emphasises wide geographical coverage with particular attention paid to East Asia Latin America Europe Russia and Africa The Routledge History of Happiness is of great use to all undergraduates postgraduates and scholars interested in the global history of emotions **Toward Responsible Innovation: Responsibility And**

Philosophy For A Humanely Sustainable Future Xavier Pavie,2021-11-08 For fifty years innovations have taken on a new dimension the Internet DNA sequencing genomic manipulations advances in transhumanism nanotechnologies and much more These recent innovations are not without addressing new issues whose consequences are as important as irreversible The innovator of whom Steve Jobs and Mark Zuckerberg are emblematic contemporary figures appears as a personality as brilliant as he is destructive who aspires to change the world regardless of the violence that may ensue With this then emerges the need to establish responsible innovation in which the innovator should be accountable for his actions and review his position as a hero To establish this new ethic philosophy is a necessary recourse since it questions among other things the self control of the Stoics the prudence of Aristotle respect of Kant the will power of Nietzsche and the power of Foucault

'Being Towards Death' Sylvie Avakian,2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the

West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger s being towards death Sein zum Tode as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the insightful creativity of which cannot be denied

Elitism and the Approach to God Robin Raybould,2025-07-24 Elitism and the Approach to God investigates a historical and cultural dichotomy in European history which has not hitherto been satisfactorily explained Why did so many of the most influential authorities of the age insist that the nature and mystery of the divine and of God should not be shared with the vulgar crowd that is with the ordinary people although this appears to be the principal purpose of all other religious teaching throughout the period Robin Raybould gives examples from the works of more than sixty authorities who insisted that the mysteries of the divine should remain secret He then surveys the attempts of other religious and civic leaders both pagan and Christian to investigate understand and by contrast to share their findings on the nature of God In a final section he attempts to reconcile these opposing views

The Book of Magic Brian Copenhaver,2015-11-05 as when iron is drawn to a magnet camphor is sucked into hot air crystal lights up in the Sun sulfur and a volatile liquid are kindled by flame an empty eggshell filled with dew is raised towards the Sun An odd feature of the Bible is that it is full of stories featuring forms of magic and possession from Joseph battling with Pharaoh s wizards to the supernatural actions of Jesus and his disciples As over the following centuries the Christian church attempted to stamp out deviant practices there was a persistent interest in magic that drew strength from this Biblical validation A strange blend of mumbo jumbo fraud and deeply serious study magic was central to the European Renaissance fascinating many of its greatest figures Brian Copenhaver s wonderful anthology will be welcomed by everyone from those with the most casual interest in the magical tradition to anyone drawn to the Renaissance and the tangled arcane roots of the scientific tradition

The Meaning of Protestant Theology Phillip Cary,2019-06-18 This book offers a creative and illuminating discussion of Protestant theology Veteran teacher Phillip Cary explains how Luther s theology arose from the Christian tradition particularly from the spirituality of Augustine Luther departed from the Augustinian tradition and inaugurated distinctively Protestant theology when he identified the gospel that gives us Christ as its key concept More than any other theologian Luther succeeds in carrying out the Protestant intention of putting faith in the gospel of Christ alone Cary also explores the consequences of Luther s teachings as they unfold in the history of Protestantism
