Unequal Benefits introduces traditional and critical approaches to policy research and explains how to conduct a critical policy analysis Winton explains the role policy plays in supporting and challenging inequality in the pursuit of a strong democracy and the public school ideal In these idealized education spaces policy decisions prioritize collective needs over private interests which are made in public by democratically elected officials and more importantly every child is able to access high quality education programs and enjoy their benefits at no cost Written for parents educators policymakers and other interested citizens Unequal Benefits sheds light on how to participate in efforts to resist educational privatization and achieve the public school ideal across Canada

The Ethnic Penalty Reza Hasmath,2016-03-23 Populations of visible ethnic minorities have steadily increased over the past few decades in immigrant receptive societies While a complex calculus of push and pull factors has motivated this increase one of the main impetuses for this migration has been the search for employment better wages and a higher standard of living It is therefore not surprising that the educational attainments of the first generation and beyond have achieved convergence with or exceeded the non ethnic minority cohort These outcomes may suggest a greater propensity for visible ethnic minorities to attain labour market success and to fully integrate within the community However the narrative derived from statistical analysis interviews and participant observation suggest an uneasiness boldly to claim this as the most convincing conclusion at this juncture The Ethnic Penalty argues that a penalty has impeded the occupational success of ethnic minorities during the job search hiring and promotion process As a result ethnic minorities have a lower income higher unemployment and a general failure to convert their high educational attainments into comparable occupational outcomes In this context the book examines whether explanatory factors such as discrimination an individual s social network a firm s working culture and a community s social trust are major contributing reasons behind this apparent penalty whilst also making suggestions for improving the integration education delivery and labour market outcomes of visible ethnic minorities
