Adaptations and the Politics of Childhood Robyn McCallum, 2018-01-16 This book features a cutting edge approach to the study of film adaptations of literature for children and young people and the narratives about childhood those adaptations enact Historically film media has always had a partiality for the adaptation of classic literary texts for children As economic and cultural commodities McCallum points out how such screen adaptations play a crucial role in the cultural reproduction and transformation of childhood and youth and indeed are a rich resource for the examination of changing cultural values and ideologies particularly around contested narratives of childhood The chapters examine various representations of childhood as shifting states of innocence and wildness liminality marginalisation and invisibility The book focuses on a range of literary and film genres from classic texts to experimental carnivalesque magical realist and cross cultural texts

Crossing Textual Boundaries in International Children's Literature Lance Weldy, 2011-01-18. As the first part of the title indicates, my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well. If we believe that no text is an island, then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry. I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium. Not only am I interested in discussing what these changes across boundaries mean socially, historically, and culturally, but also what they mean geographically, which accounts for the second part of my title. I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did in the sense that I have added more scholars on an international level. I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways, by either studying abroad or finding permanent residency in foreign countries. Nevertheless, the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America, and Wales.

Red Riding Hood for All Ages Sandra L. Beckett, 2008. A global study of modern adaptations for readers of all ages of Little Red Riding Hood. *Red Riding Hood for All Ages* investigates the modern recasting of one of the world's most beloved and frequently told tales. Author Sandra L. Beckett examines an international selection of contemporary fiction for children, adolescents, and adults to find a wide range of narrative and interpretive perspectives in the tale and its revisions. Beckett shows how authors and illustrators from around the globe have renewed the age-old tale in a range of multilayered, sophisticated, and complex textual and visual *Red Riding Hood* narratives. With a child protagonist who confronts grown-up issues of sexuality, violence, and death, the *Red Riding Hood* story appeals to readers of all age groups and is often presented in crossover texts that can be enjoyed by both children and adults. Beckett presents a wide selection of retellings, many of which have been never translated into English. Texts come from a variety of countries in Europe, North America, South America, Africa, and Asia and date from the early twentieth to the twenty-first century. This wealth of stories and illustrations is organized thematically into sections that consider *Little Red Riding Hood* alternately as a cautionary tale, an initiation story, a story focused on the wolf, a tale inspired by the wolf within, and a story of an unconventional girl who runs

with wolves This volume provides a global survey of Red Riding Hood's story in contemporary culture proving that the character is omnipresent in modern literature and that the universal appeal of her story knows no age boundaries Red Riding Hood for All Ages will be of interest to scholars of folklore gender studies and literature as well as librarians educators parents and all those interested in the many interpretations of the Red Riding Hood tale **Linguistics and Language Behavior Abstracts**, 1989 Children's Books on Ancient Greek and Roman Mythology Antoine Brazouski, Mary J Klatt, 1994 This reference begins with chapters on the history of children's books on classical mythology in the United States and then presents an annotated bibliography of appropriate titles for children **Reading and Writing in Elementary Classrooms** Patricia Marr Cunningham, 2004 This K-4 text follows the style of the successful Cunningham Allington franchise It is very practical with tons of activities and grounded on solid research With new chapters on Fluency Assessment and a new organization this text offers the most current insight on thinking processes on reading and writing as language and on the importance of the affective domain Other Books by These Authors Phonics They Use Words for Reading and Writing Third Edition Patricia M Cunningham Wake Forest University ISBN 0 321 02055 3 Classrooms That Work They Can All Read and Write Third Edition Patricia M Cunningham Wake Forest University Richard L Allington University of Florida ISBN 0 205 35541 2 Schools That Work Where All Children Read and Write Second Edition Richard L Allington The University of Florida Patricia M Cunningham Wake Forest University ISBN 0 8013 3246 X Reading and Writing in Elementary School Classrooms 4e was well conceived and will only grow in popularity as more and more teachers seek support for the teaching of reading The book is a great effort on the part of the authors Professor Lee T Person Ed D Associate Dean for Education Ottawa University Its clear that these authors know the research know the history of reading instruction and know the classroom They have a keen sense of how to help the teachers move forward in understanding and implementing good literacy practices by utilizing new insights without being iconoclastic Professor James Rooks Calvin College The pedagogical elements of the text are excellent One of the things I like best about the book is the inclusion of the appropriate activities within each chapter so that students can read about and practice the concepts first hand Professor Luther R Kirk Longwood University Author Bio David W Moore serves as a Professor of Education at Arizona State University West where his teaching centers about literacy development His publication record balances research reports professional articles book chapters and books Recent co authored books include Developing readers and writers in the content areas K-12 4th ed and Starting out A guide for teaching adolescents who struggle with reading Patricia M Cunningham is a professor at Wake Forest University in Winston Salem North Carolina In addition to university teaching she worked for ten years in public school positions that included first grade teacher fourth grade teacher remedial reading teacher curriculum coordinator and director of reading Dr Cunningham has published numerous research and applied articles She is also the author of Phonics They Use and coauthor of Schools That Work Along with Dorothy Hall she developed the Building Blocks and Four Blocks frameworks for providing balanced
