Computational Methods to Examine Team Communication Sara McComb, Deanna Kennedy, 2020-02-07 The primary focus of this book is an examination of longitudinal team communication and its impact on team performance This theoretically grounded holistic examination of team communication includes cross condition comparisons of team i.e. distributed in person unrestricted time pressured two performance episodes and employs multiple quantitative methodological approaches to examine the phenomena of interest This book simultaneously provides practical content for researchers and practitioners in the social sciences and humanities Included are step by step instructions for the methodologies employed and distillations of findings via Managerial Minutes that highlight best practices and/or examples to help enhance team communication in practice

Qualitative Data Carl Auerbach, Louise B. Silverstein, 2003-09 A necessary guide through the qualitative research process Qualitative Data is meant for the novice researcher who needs guidance on what specifically to do when faced with a sea of information It takes readers through the qualitative research process beginning with an examination of the basic philosophy of qualitative research and ending with planning and carrying out a qualitative research study It provides an explicit step by step procedure that will take the researcher from the raw text of interview data through data analysis and theory construction to the creation of a publishable work The volume provides actual examples based on the authors own work including two published pieces in the appendix so that readers can follow

examples for each step of the process from the project's inception to its finished product. The volume also includes an appendix explaining how to implement these data analysis procedures using NVIVO, a qualitative data analysis program.

Re-presenting Research Florentine Marnel Sterk, Merel M. van Goch, 2023-06-15. This open access book focuses on the textual features or strategies which form popularization discourse. In popularization discourse, research findings from academia are re-presented to make them noteworthy to society and influential for everyday life. Popularization involves recontextualization or reimagining of findings in an everyday and newsworthy context and reformulation of the use of audience appropriate language to increase text comprehension and engagement. Re-presenting research presents an empirically grounded analytic framework for the analysis of popularization texts. Its applicability spans across disciplinary, multidisciplinary, and interdisciplinary fields and overarches science communication, science journalism, and research communication. The book offers theoretical background information on popularization discourse, empirical underpinning of the construction of the framework, and practical applicability in examples from multiple text types and academic fields. This book acts as a guide for those working with or on popularization discourse, whether it is to analyze it or learn about it.

Qualitative Inquiry in Doctoral Research: Pathways to Effective Design and Implementation Tariq, Muhammad Usman, 2025-04-25. Qualitative research is critical in doctoral studies, offering detailed insights into complex data that quantitative methods often cannot capture. Designing and implementing qualitative research equips doctoral students with the essential tools to navigate the nuances of data collection, analysis, and interpretation. By exploring various qualitative methodologies like interviews, ethnography, and case studies, research can be both methodologically accurate and meaningful. Fostering critical thinking, reflection, and understanding of the ethical considerations that shape effective qualitative inquiry requires further exploration in academic settings. *Qualitative Inquiry in Doctoral Research: Pathways to Effective Design and Implementation* explores qualitative research methodologies tailored for doctoral students across various academic disciplines. It explores each stage of the qualitative research process, from the initial selection of appropriate methodologies to the presentation of research findings, and delves into traditional and innovative qualitative methods. This book covers topics such as ethnography, research design, and data science, and is a useful resource for academicians, researchers, and scientists.
